VOL. XXV BELLEFONTE, PA., THURSDAY MORNING. FEBRUARY 8, 1894. NO 6

REPUBLICAN STATE TICKET.

FOR CONGRESSMAN-AT-LARGE:
HON. GALUSHA A. GROW.
of Susquehanna county.

WHAT THE GRANGERS WANT.

An Important Document Which Should be Read by Every Farmer.

Our worthy Centre countian, Hon. Leonard Rhone, is one of a committee of three who prepared the following paper which was presented to the Senators and Representatives at Washington for their consideration:

We, the undersigned, have been appointed a committee of the National Grange of the Patrons of Husbandry to urge before your Honorable Body such legislation as is deemed by our Order essential to the prosperity of the agricultural interests of our country, and in attempting to discharge this duty we find it necessary to emphatically object to some of the changes proposed in the agricultural schedule by the so called Wilson Tariff Bill, and in so doing we have nothing to say for or against protection as a policy of the Government; but as a revenue measure, every American citizen is interested.

We deem it the true policy of the National Government to collect its revenues, as much as possible, from duties on imports, as being a system of taxation more equitable and less burdensome when justly distributed than direct taxation upon the industries and property of our people, thus leaving this class of subjects to the States for taxation for the collection of their revenues, as they cannot levy an import tax under the Constitution of the General Government. Another reason why foreign trade should pay import duties is that our Government must maintain wharves and ware houses for the accommodation of their trade, and this trade should justly pay for this privilege out of which it is proposed to gain a livelihood.

The members of our Order, of course, differ in their views upon the details of equitable tariff legislation. It is not the duty of the Order to interfere with the free exercise of the rights of our members as citizens.

When the people at the ballot box decide any issue raised by the political parties on general principles our Order cheerfully accepts the situation, and only insists that the policy thus endorsed shall be fairly carried into effect without any discrimination against the farmer, or any class or interest in our country.

When the people decided for the protective policy at the polls we asked Congress that in the proposed tariff revision agriculture should receive the same consideration as did other interests. Our demands were respectfully and fully considered, and, with one exception, all that we asked was incorporated in the tariff laws of our country, and the farmers were largely incidentally protected in the American markets, and as a result realized better prices for hay, barley, vegetables, potatoes, beans, live stock, poultry, eggs, tobacco, fruits and many other products, which were not oppressive to those engaged in other vocations.

In the change of the political situation of our country our farmers had reason to believe that in the revision of the tariff, placing it on a new basis, that it would be so adjusted that duties would be imposed largely on luxuries and such products as might be imported that would directly come in competition with American agricultural productions and American manufactures, which were essential to give employment to American labor and capital. In fact this was guaranteed in the Chicago platform of the present party.

The Legislative Committee of the National Grange, at the special session of Congress, advised the Committee of Ways and Means of the importance of taking care of the agricultural interests in drafting a revised tariff bill.

Had the committee reported a bill in strict conformity with the decision of the people at the polls we should have nothing to say against it, but because the proposed legislation is very unjust, in so far as it pertains to the farmers, and unfairly discriminates against the interests of agriculture by virtually abandoning the New England, and New York and coast trade to Canada and other foreign countries, by reason of proximity and cheap water transportation, which in effect bring the producers in foreign countries closer to these markets than our American farmers in the interior, who must transport by the more costly methods of rail.

The great bulk of agricultural products imported into the United States from Canada and countries beyond the sea are consumed in our seaboard cities and great manufacturing centers of the East, which should be preserved as a market for the products of the farmers of the United States.

Your petitioners respectfully maintain that the difference in the cost of agricultural productions in the United States and in foreign countries should be regarded as a just measure of the duties which may be laid upon the products of foreign agriculture for the protection of American farmers. The cost of agricultural productions, including the transportation in the United States, exceeds the cost of such productions in Canada, including transportation, by 44 per cent., owing to the price of labor. This is at least 10 per cent. in excess of the duties now imposed by law upon the products of foreign agriculture, and the cost of agricultural productions in countries beyond the sea is even less than in Canada, owing to the same cause.

The Wilson tariff bill, as it now stands, is unjust as between the manufacturers and the farmer, who is a producer of wool, flax and other fibrous productions that enter into the manufacture of cloth. If the manufacturer should have free wool, then the farmer should have free cloth.

We ask for justice, that you treat the farmer as others are treated.

The placing of agricultural implements on the free list in compensation for the reduction of the duty on agricultural products is ridiculed by every intelligent farmer, as no agricultural implements are imported of any consequence, being much inferior to those manufactured in the United States, which are sold to the farmer for a less price and on easier terms than in any country in the world.

In view of the foregoing facts, we earnestly ask all true friends of the farmer to insist upon a fair revision of the tariff, and that in any legislation upon the subject that the present agricultural schedule be maintained, or otherwise defeat the proposed legislation.

We also desire to impress upon your minds the fact that we do not consider the present financial system of our country as satisfactory, and believe it is the cause of much of the financial embarrassment. Our members generally favor an increase in the volume of the currency to meet the business requirements and revive the industries of our country and give employment to labor.

The majority of our farmers are bimetalists. They may differ somewhat as to the details, but earnestly desire to maintain both silver and gold as money, with an issue of United States Treasury notes, if necessary, to bring the volume of the currency up to at least forty dollars per capita. They favor such financial legislation and such an adjustment of the tariff as will secure our American markets for American labor and American capital which will again start our country on a prosperous career.

We therefore respectfully petition your Honorable Body to favorably consider the great agricultural interests of our country, upon which the prosperity of all other industries depends, and so legislate that the foregoing suggestions, which we have felt it our duty to present, may be enacted into law, believing that it will be the means of bringing contentment and happiness to thousands of rural homes and prosperity to our whole country.

Respectfully submitted.

J. H. BRIGHAM,
LEONARD RHONE.

The faith curers are still at work sacrificing human life by discarding the remedies which science and experience have approved and looking for a miracle to be performed in the healing of diseases. A mother and young infant were killed last week in Elizabeth, N. J., by some deluded, we might say demented, who turned out the nurse, shut the door on the doctor and thought to give vigor and health to the young mother and babe by holding the tender infant aloft and singing around the bedside of the mother: "Hallelujah, Hallelujah, Jehovah is king." The exposure of the infant, the excitement of the mother and their deprivation of the usual remedies and care which the mother and child needed killed them both. No miracle was wrought, not even the miracle of convincing the faith curers that their insane antics had caused a double murder.

IMPORTER OF CARBONS ASSIGNS.

NEW YORK, Feb. 5.—Simon Dissau, importer of carbons, assigned to-day to Leon Lewin, giving preferences for $67,000. He has been in the business many years and reported heretofore to be worth $300,000. The assignment is caused by dull business and the financial stringency and heavy losses by endorsing for others, which he had to pay. His trade was chiefly with mining people in the west and Pennsylvania. He sold the black diamonds used in drilling. His liabilities are reported to be very heavy.

A late dispatch from Honolulu says that Queen Liliuokalani lives a secluded life. So does Blount, and so will Walter Q. Gresham in a few brief years or months.

THE BRITISH SITUATION.

When the Pall Mall Gazette declared that Mr. Gladstone meant to retire from public life it is likely that nine tenths of the newspapers and the public were incredulous. The London papers at once denounced the sensationalism which had been imported by the American proprietor of the Pall Mall Gazette, and we believe they are still at it. They don't like Mr. Astor, anyhow; the fact that it is an American is sufficient to provoke venomous hatred, and they have eagerly embraced this opportunity to discredit him and his journal.

Nevertheless, those who read the qualified denial authorized by Mr. Gladstone will hardly be able to escape the conviction that Mr. Astor's newspaper knew what it was talking about. The inference from that card is that the premier means at least to permit his colleagues large liberty and to withdraw more and more from public life. It is probable that there had been no intention to take the people into the confidence of the government. That is where Mr. Astor's "American journalistic enterprise" came in.

It is stated that the leaders of both parties in Great Britian anticipate a speedy dissolution of parliament and another appeal to the country. The liberal leaders have sent out circulars to their followers and the tories are not less active. There seems to be a good degree of dissatisfaction with the existing situation and a hope that the electorate, if given another chance, will declare more decisively on behalf of one party or the other. We will not venture the prediction that the home rule cause is any weaker now than it was at the last parliamentary election, but the conduct of the Parnellites has done much to disgust the English people and to dishearten the friends of home rule. If Mr. John E. Redmond and his followers were in the pay of the conservatives they could hardly render them more effective service. There is likewise an impression that England should have her day in parliament too.

Nevertheless, the liberals have been able to devote some attention to matters in which the common people of England, Wales and Scotland are interested, and they have apparently strengthened themselves thereby. It may be that the voters, realizing that they had nothing to hope for from the conservatives, will continue the liberals in power, and even give them a large majority. That the liberal leaders believe that is probable; if it were otherwise they would scarcely precipitate a dissolution at this time. It is likely, however, that the liberal leader in the next parliament will be Lord Rosebery and not Mr. Gladstone; this will be a sad blow to the liberal party, but it is one of the things that time makes inevitable.

SMALLPOX AT TYRONE.

The Tyrone correspondent of the Altoona *Times* writes his paper as follows:

The smallpox cases at Tyrone Forges, which for policy's sake have been given little or no publicity up to this time, have now reached such proportions that it is time that something be done and that immediately to prevent the spread of the disease and to keep it from reaching Tyrone. The first patient, who is said to have contracted the disease while visiting Reading, is now out of danger, but from this one case a number who have been exposed to the contagious diseases have contracted it, until now the number of cases is unauthoritatively given from eight to thirteen. We are informed by good authority that no flags or other marks are displayed to indicate the houses infested and quarantine which was said to be rigid is confined to preventing ingress and egress in such houses. People living in the vicinity of the diseases and having daily communication with the afflicted families visit Tyrone's business places every day. If this and other material for spreading the contagion which exists are allowed to continue, how long will it be until Tyrone will be a victim to the deadly malady. Tyrone cannot place a quarantine at the Forges, but it can prevent those in contact with the disease from coming in. This afternoon on Pennsylvania avenue a man from the Forges boasted of three cases of smallpox in his family. Last night a Tyrone man, whose business interests are centered at the Forges, telegraphed the state board of health to take action in the matter. Tyrone has no board of health, but efforts are being made for its formation. The formation and action of such a board should not be delayed until after council meeting to morrow night, but their work should be commenced to-morrow morning. Tyrone people are in no way afflicted with the disease or scared, but the necessity for immediately exercising every effort or precaution is apparent.

DEATH AT HUNTINGDON.

HUNTINGDON, Pa., February 5.—Mr. J. F. Rung, foreman in the tin shop at the reformatory died at his home here this morning, the result of a paralytic stroke received on the morning of January 10. Mr. Rung was entering the gates at the institution when he was overcome with the affliction. At no time since then had he shown any signs of improvement, lying all the while helpless in bed. He is survived by a wife and five or six children. He was about 50 years of age.

THE INCOME TAX IN ENGLAND.

Judging by what was said in Congress by the advocates of the income tax many have supposed that in England it is regarded as the ideal tax. How far wrong that supposition is Sir John Lubbock explains in an article on the subject in the *North American Review* for the present month.

While the idea of such a tax can be traced back to 1435, it was not put into operation until 1799, by Pitt. After the peace of Amiens it was repealed because it ought not to be resorted to except in time of war. It was re-enacted when war was renewed, but was unpopular, and repealed again in 1806. In 1842 Peel reimposed it as a means of relieving trade and commerce from other taxes "by which they were hampered and bound," but it continued to be unpopular, and over and again the promise was given "that it should be only temporary, and it is still only imposed from year to year."

Over there it exists in five branches: income from lands and houses based on rent; from rent, "but while the measure of charge is one-half in England, it is only one-third in Scotland and Ireland;" from any public revenue; from professions and trades; from employments by the State. After furnishing a list of statistics showing the increase in the amounts assessed in 1882 and 1892, Sir John says: "The income tax can only be defended on principle as long as it is kept within very moderate limits. It is open to two great objections: Firstly, because it falls equally on temporary and permanent incomes; and secondly, because the same rate is imposed on income derived from individual exertion as on that from real property." And he quotes Mr. Gladstone as saying that it is "not desirable to maintain the distinction of the permanent and ordinary finance," and adds that in 1874 Mr. Gladstone "placed the repeal of the income tax in the forefront of his address to the country."

The tax proposed in this country is not in detail the same as that in England, but the same in principle, and the principle is what has been objected to. While it has not been abolished, no party, as Sir John says, has dared to formally declare it a permanent means of revenue, but imposes it merely from year to year as an emergency tax. It was laid originally as a war tax, and the Democrats, who have been so voluble in denouncing the tariff as a war tax to take the place of it.

GONE TO THE INDIES.

THE NEARLY one hundred pupils of the schoolship Saratoga started on their mid-winter voyage Saturday for a three months' absence in the West Indian latitude. It is expected that of the ninety-one days which the voyage contemplates fifty-five will be passed at sea and thirty-six in port. These figures are probably too exact to be actually realized, for the sea is a capricious mistress whose alternate storms and calms play the mischief with an exact voyage programme. The trip is intended to exercise the boys in a real sailor's life, and whether the voyage is a few days longer or shorter than the published programme is a matter of small consequence. It will be sailed in the finest winter climate of the Atlantic seaboard, and will present the seaman's life to the embryo seamen under the most pleasant conditions. The boys should enjoy the trip as well as profit by it.

THE LOUISIANA LOTTERY.

WASHINGTON, February 5.—Up to this time Postmaster General Bissel has received no official information of the proposed or actual resurrection of the Louisiana lottery and the establishment of its headquarters at the port, Tampa City, Fla.

General Bissell is thoroughly alive to the necessity for prompt and vigorous action in the premises and in the case the fact established that the lottery company has again opened up for business he will exercise every power under his control to stamp out and with a view to a thorough extermination of the evil, he has asked the state department to take up the matter with the governments of all of the Mexican and South American States, and if possible secure action by which the scheme of making drawings in one country in order to evade the laws of another may be prevented.

The Wilson Company want to dig a tunnel under the North River, New York. It won't be a circumstance, though, to the tunnel that Wilson Congressman has started to dig for himself and his party. There's a beginning but no end to it.

A HOTEL BURNED.

The Park Hotel, Somerset, Destroyed Together With its Contents.

Somerset was visited by a destructive fire yesterday morning, flames breaking out about 3 o'clock in the Park hotel, from a cause not known. Not a thing was saved and the guests and other occupants of the house being fortunately awakened in the nick of time, were compelled to flee in their night clothes for their lives and seek shelter in neighboring houses. One of the servant girls was seriously burned before being able to effect her escape from the building. When the fire was discovered the building was already a mass of flames. The whole town turned out, men, women and children, and the fire was fought by a "bucket brigade" hastily formed, and by the use of a "soda" engine which is the only fire apparatus possessed by the borough. All effort to stay the progress of the flames was, however, futile and but for the fact that the roofs of the neighboring buildings were covered with snow and that no air were stirring it is entirely probably that Somerset would have experienced her third disastrous conflagration.

The loss upon the building and contents is estimated at from $12,000 to $15,000. The house was considered one of the best in Somerset county. It was bought by the landlord, Charles Vannear, from Elias Cunningham about four years ago for $8,000 and was finely fitted up with oak furniture and Brussels carpet in every room. The table service was of the finest silver and China and all of the appointments were of the very best. Mr. Vannear, who is about 55 years of age, is greatly cast down by his loss. The house was well insured, but there was no insurance on the contents. It was a licensed hotel.

The Park hotel was a historic building. It was erected by the late Judge Jeremiah S Black many years ago and was occupied not only by him but by his distinguished father-in-law, Chauncey Forward, after whom ex-Lieutenant Governor Black was named. It has since had several other owners and occupants, among them being John J. [illegible], H. Pisel, Elias Cunningham and W. H. Pisel. Many improvements have from time to time been made to the building, and, as remodeled, it was a very fine structure.

CHEATING THE GOVERNMENT.

NEW YORK, Feb. 6.—Samuel Nichols, colored, a driver for the firm of Pitt & Scott, English forwarders, was arrested to-day at Old Bridge, N. J., by Special Customs House Agents McDonald and Anderson, Pitt & Scott, for whom Nichols worked, it is alleged, have been defrauding the government for a long time by a rather ingenious method. They would bring into this port, enroute for Canada, cases of goods invoiced as cheap crockery, etc., but containing valuable articles, then remove the goods here and put less valuable goods in their places. It is believed that the government has been cheated out of over $200,000 recently by the firm's operation.

In order to give the Vice-President some sort of duty the framers of the Federal Constitution made him President of the Senate, and most of the States have followed the example and made the Lieutenant-Governor presiding officer of the State Senate. These useless functionaries generally bear themselves modestly, but the course pursued by Lieutenant-Governor Sheehan, of New York, shows the inconvenience and confusion in having a fixed-presiding officer of a parliamentary body not a member of it and not responsible to it. It is a bad arrangement on principle and it is a great wonder it has not in practice produced chaos and confusion before this.

FOY ON THE STAND.

CHICAGO, February 6.—Andrew Foy, accused by his wife of conspiring with Daniel Coughlin and others to murder Dr. Cronin, and under police suspicion since May, 1889, was the witness for the defense at the trial to-day. He did not spend as much time as Mrs. Foy on the witness stand and flatly contradicted his wife's story regarding the secret conspiracy meetings held at his house, the reading of the "Remove at all hazards" letter, and the meeting of Burke and Coughlin outside Foy's house the night of May 6. The prosecution did not change the tenor of his testimony.

BROSIUS MAY GET IT.

The announcement on Tuesday that E. R. Chambers, Esq., had been appointed deputy revenue collector for the 6th Division, 12th District, did not create as much surprise among the applicants for that position in this place, as did the story brought from Lock Haven in effect that ex-county commissioner Brosius either already had been or else would soon be given the appointment. Of course, to anyone who knows anything about the matter the fact of Mr. Chambers having received a commission is very plain. But there is a fear amongst the applicants here lest Brosius should carry off the plum they have all been trying to gather.

THE RELIGIOUS REVIVAL.

Those who believe that times of financial depression are always marked by a greatly increased attention to religion are having their belief re-enforced by the revivals now occurring in some parts of the country. The most noticeable of these is in progress in Brooklyn, where extra meetings are held daily in almost all the churches. No such interest as that now manifested in that city has been witnessed since 1857, when another business panic spread over the country. The awakening is much more wide-spread and has stirred more profoundly all classes of people than the revival of 1876, when Moody and Sankey held their memorable meetings in a number of large cities after a successful preaching tour of England.

But while there is the same interest in religious subjects seem now as in past seasons of awkening, there is noticeable a wide difference in the methods employed to reach people. The old type of revivalists, who looked upon such times as these as their harvest, has gone out of use. Their appeals to the fears of people and their lurid pictures of the fate that awaited those who were too firm-nerved to be moved by their stentorian assertions have become things of the past, at least in the older States. They may still survive on the frontier, but even Sam Jones has discarded them and trusts more to a blunt statement of facts than to a "harrowing up" of the feelings of his hearers in order to convince them. The real facts of life are placed before people in a sympathetic way, and personal appeal is found more effective than working on the fears.

This change in the manner of conducting revivals is a welcome relief to those who believe in the great truths of religion but have deprecated efforts to "scare" men out of a wrong way of living. It marks the progress people have made toward a better understanding of the fundamental facts of religion. There is a popular claim made of a great growth of indifference in religious matters. If only a superficial view is taken this claim will have to be admitted. There is no longer a belief in a material heaven and hell, and the five points of Calvinism have vastly fewer adherents than they had fifty years ago. But on the contrary there has been a strengthening of the belief that a sober, industrious life and a conscientious performance of duty and an effort to improve opportunities will surely reap their reward, and that a life based on opposite principles will have its inevitably sad results.

ON TRIAL FOR MURDER.

MIFFLINTOWN, Pa., Februrry 6.—The trial of James B. Carpenter for the murder of his father, James S. Carpenter, at Port Royal, on December 10, 1893, began here to-day. The commonwealth was represented by District Attorney Schweirer, Hon. L. E. Atkinson and John J. Patterson, Jr. The defense being made by ex-Judge Bucher, of Lewisburg; William Sponsler, of New Bloomfield, and Jeremiah Keller, of this place. The legal battle was opened after the arraignment of the prisoner by a preliminary motion on the part of the defendant to quash the array of jurors, based on a claim of illegal filling of the jury wheel in December. Pending argument court adjourned at 6 o'clock.

ENDED IN A TRAGEDY.

NEW ORLEANS, La., February 6.—In an outlying district of the city at 6 o'clock this evening the mardi gras spot of a party in costume was brought to a tragic ending by the killing of one man and the wounding of four others. At the corner of Independence and Morales, a masked party in costume encountered several young men and a row ensued. Leon Copping, a young man of 19 years, dressed to personate a monkey, shot and killed Philip Boe, probably fatally injured Mike Boe, mortally wounded his brother, William Copping, and slightly wounded Valentine Cramer. Leon Copping was arrested, charged with murder.

—A lady member of one of the Tipton churches found a cent a year ago while sweeping the church. She invested and re-invested the money for one year and this week turned over $5 as the result of her labor. The money will be used for foreign missions.

Poor little Willis. He has at length got down to the Administration level. He did not even say "thank you" for the Provisional Government's invitation.

Cloucester Sporting Note—Governor Werts still continues his unrivaled exhibition of political three-card monte before the people of New Jersey.

LUMBER FAMIME COMING.

Dr. Rothrock Talks Freely and Tells How They Do in Centre and Clearfield Counties.

Dr. J. T. Rothrock, the State Forrester, of West Chester, was in Pittsburg on Thursday and the *Dispatch* publishes the following information as told by Mr. Rothrock: Dr. Rothrock has devoted 17 years to the forestry question. He says when he commenced the work he was roundly ridiculed, but the rapid decrease in the production of timber in recent years is arousing the people to the seriousness of the situation.

A forestry commission is now at work gathering statistics for the next Legislature. Recommendations of remedial character will also be made. Dr. Rothrock is busy traveling over the State, making personal examinations of the timber resources. He says about one-eighth of the land is denuded. It is a barren waste, not earning a cent. Three thousand miles of mountain timber land are bare, the trees having been cut down or swept away by the terrible fires. In addition there are about 3,000 miles more of bottom and other lands that are too poor to raise crops on which trees could be planted. The Doctor claims that to-day Pennsylvania is not producing enough timber to supply the needs of its people.

HERE'S A GLOOMY OUTLOOK.

At the present rate of consumption, with no effort at reproduction, the trees of the State will be gone in 20 years, and in 40 years the United States will have to look elsewhere for its supply. There is a remedy, of course, but up to this time it has been a difficult matter to beat it into the heads of the people. Happily, they are beginning to realize that something must be done. With a prodigal hand Dr. Rothrock states that the Americans swept the fish out of their streams until they had to restock them, the oyster industry was ruined along the seacoast until the bivalves had to be cultivated by artificial means, and now a timber famine is actually staring the people in the face.

Discussing the subject further he said: "Some people say to me that it would take 60 years to produce our forests. Suppose it does. We will need timber in the future, and we can't begin to provide too early for the void that is surely coming. We have a law in this State offering anybody who will plant trees on his barren land a rebate of 90 per cent of the taxes for the first ten years, 80 per cent for the succeeding 10 and 60 per cent for ten years more. In other words, a rebate of 75 per cent on an average for 30 years is guaranteed. Few people are aware that such an inducement is offered. A crop of locust and chestnut trees could be raised on hillside or mountain land inside of ten years. They would realize a handsome sum for fence posts. All the attention they would need would be the mere planting. The seed could be sown like grain and they would grow from it without cultivation.

ONE OF THE EASIEST RAISED.

"The chestnut is one of the easiest trees to raise. We have miles upon miles of bottom lands along our streams in this State that have become valueless on account of the floods. The high water has carried away the soil as well as the fences. These lands now yielding nothing and abandoned by the farmers could be planted in black walnut and shellbark hickory. In ten years if these lands were cultivated we could raise enough hickory to supply the wheelwright industry of the State which is extensive. Now our wagon and carriage builders must export this hickory from Kentucky and Tennessee.

"The reproduction of our hemlock forests is a very difficult problem. Hemlock won't grow unless it is shaded. It may thrive all right for several years, but it is sure to die. Hemlock could be developed in greenhouses probably, and then be transplanted, but the losses from death would undoubtedly be great. It is thus seen that every time a hemlock is cut down it will likely never be replaced. The tanning industries in the northern counties depend on the bark for tanning. They will be the first to suffer when the hemlock is gone. A remedy, however, is the chestnut, which is easily grown. The inside wood of the young chestnut will produce tannin, and our tanners in the future will likely have to depend on this tree.

"Look at our ship building interests. Where do the pine masts come from? Twenty-five years ago we found the finest pine in Pennsylvania. Now if you will visit the shipyards and look at the timber seasoning you will find most of it marked Tacoma, or Puget Sound.

"As for the theory that floods are increased by forest denudation, it is yet an open question, and I do not care to say anything on that subject.

RECOMMENDATIONS WILL BE MADE.

"The Forestry Commission in its report to the Legislature will make a number of recommendations. One will be about the prevention of disastrous fires that destroy so much valuable timber yearly. They are caused by railroads, hunters, farmers who burn away brush to plant grass for cattle, and from pure maliciousness. I suppose 50 per cent of the forest fires originate from the latter cause. I have known hunters to fire the whole side of a mountain to shoot a few deer. In one section of the State the people burn off the young timber every three years to raise a crop of huckleberries. But the trouble is that while we are debating the subject and trying to awaken public interest, the soil on our denuded hillsides and mountains is being washed away, leaving nothing but the rocks. The problem of replacing our forests will be more difficult every year it is deferred. In Centre and Clearfield counties they have tried the plan of drafting the citizens to put out forest fires. The result has been that one set would start the fires, the other would put them out, and then they divide the spoils. New Hampshire and Maine are now trying this method to prevent conflagrations.

"Another important subject on which the Commission will report is forest reservations near populous centers to maintain the purity and supply of water. One will be established in the eastern part of the State, the other in the western section. These reservations are intended to be self-supporting. From the beginning there must be timber enough to cut to pay expenses. The reservations will make magnificent outing grounds. It is a puzzle to me that while the State spends large sums in providing hospitals for the sick, that the great class of overworked people who are its mainstay are overlooked. New York has such a reservation in the Adirondack region set aside primarily to supply water for the Hudson river and secondarily as a great pleasure ground for the public."

FEBRUARY WEATHER.

February weather statistics for the last five years. The mean temperature was 32. The warmest February was that of 1890, with an average of 38 degeees. The coldest was that of 1889, with an average of 25 degrees. The highest temperature was 74 degrees on February 5, 1890. The lowest temperature was 1 degree on February 24, 1889. The average rain and snowfall for the month was 2.77 inches. The greatest monthly precipitation was 4.66 inches in 1893. The least monthly precipitation 1.02 inches in 1892. The greatest amount of precipitation recorded in 24 consecutive hours was 1.35 inches on February 13, 1893. The greatest amount amount of snowfall recorded in 24 consecutive hours (record extending to winter of 1884-5 only(was 12 inches on February 21 and 22, 1893. The average number of cloudless days was 6, the average number of partly cloudy days 8, and the average number of cloudy days 14. The prevailing winds have been from the northwest. The highest velocity of the wind during any February was 48 miles on February 19 1893.

TROUBLESOME INDIANS.

DENVER, Col., February 2.—Colonel Ward, adjutant general of the department of Colorada, sent an inquiry to-day to Fort Grant in relation to the report of an Indian outbreak from the Apache reservation in Arizona and received a reply from Colonel Arnold that he had sent Lieutenant Arnold with ten men to the scene to investigate the reported outbreak. Hualipi Clark, a prospector, reported that four bucks and a squaw had appeared at his camp, located some distance from the reservation, and the Indians appeared to be in hostile array. He had gone to the town of Mammoth for reinforcements, passing on the way the home of another prospector named Edmund Emerson, which had been looted and Emerson had disappeared. A party left for Mammoth to drive back to the inland. It is thought that Apache Kid is again at large or that the Apaches are out for trouble.

MR. CHILDS DEAD.

PHILADELPHIA, February 2.—Shortly before midnight the physicians attending Mr. Childs issued the following bulletin: "Mr. Child's condition has changed for the worse, and is extremely critical."

PHILADELPHIA, February 3.—At 12.15 Mr. Child's physicians issued the following bulletin:

Mr. Child's respiration, which became embarrassed at 10 o'clock, is steadily growing worse. His pulse is flagging and his condition is now beyond hope.

3 A. M.—A message just received from Mr. Child's home says that he may live until morning.

Mr. Child's died 3.01 a. m.

GETTING TIRED OF HUNS.

UNIONTOWN, Pa., February 2.—The coke operator in the vicinity of Uniontown have commenced the wholesale discharge of Hungarians, Slav and Polish employes. A large number were dismissed yesterday and others have been notified to leave. The exodus of the foreign element from the coke region during the past six months has been very great, many of them returning to their own country, others going to the western part of the United States. The recent riots in the Mansfield valley have had much to do with the renewal of the determination on the part of employers to get rid of the disturbing elements in the coke regions.

WOMEN FOR SCHOOL DIRECTORS.

The Hollidaysburg Democratic convention held on Tuesday evening nominated Mrs. John H Law, the head of the organized society, and Miss Annie M Irvine, of the Needlewoman's Guild, for the office of school directors. Both are freeholders and are associated with many philanthropic and educational enterprises. The difficulty in obtaining male directors who will visit the schools caused these unprecedented nominations.

—The Lamokin Car works have not yet decided on their future location and our people here, though they have no positive news from them, still think that Bellefonte's chances for securing this important industry are as good as ever.

A BANKER ARRESTED.

D. C. Oyster of Ridgway Charged With Embezzlement.

RIDGWAY, Pa., Feb. 1.—The arrest of ex-Bank President D. C. Oyster on a charge of embezzlement created something of a sensation here. Mr. Oyster's bank failed early in the summer, and many local depositors and laboring men who had saved their earnings for years were left without a dollar. There were rumors, as usual in such cases, but the excitement gradually wore away, until to-day, when the announcement was made that Mr. Oyster had been arrested. It seems the case against him had been worked up very quietly, and the announcement that the ex-bank president was to be prosecuted for embezzlement of the funds of the bank created intense excitement.

Constable Yount of Ridgway served the warrant and twenty-five witnesses were subpoenaed. The prisioner was taken to St. Marys for a hearing and appeared before Justice Charles McVean. Justice Dixon of Ridgway being a witness on the case it was thought advisable to have the hearing at St. Marys. A hearing was waived and bail entered in the sum of $10,000 for his appearance at court.

HE STOLE SILVER.

WASHINGTON, Feb. 1,—The peculations of James Anderson, of Indiana, a well connected lad, 18 years of age, employed as a messenger in the Treasury vaults who was arrested last night for stealing silver from the vaults, prove more serious than was supposed. The amount is $794 as far as has been ascertained, and the inquiry is still in progress.

When the theft was first discovered it was supposed to amount only to a few dollars, and at the request of the treasury officials, publication of the fact was suppressed.

The method of his theft was somewhat similar, though on a much smaller scale to that pursued by Cochran with the gold in the Philadelphia Mint.

COULD NOT BE IDENTIFIED.

NEWARK, N. J., February 1.—Lawyer Kalisch counsel for Hall and Barth, who were arrested last night on a charge of swindling, declared this afternoon that he would take some decisive step to have his clients released, as there was no cause for keeping them confined in this city.

Two members of the firm of A. Lounsbury & Son, manufacturing jewelers of New York, called at police headquarters to-day for the purpose of identifying Hall and Barth. They could not be identified.

Colonel John T. Hall and Joseph Barth were discharged from custody at police headquarters to night, no charge having been made against them. They will sue Courter for $50,000 each.

BESSIE WENT BACK.

CHESTER, Pa., February 1.—One of the laws remaining on the statute books from the colonial days of the state was enforced here to-day by Alderman Garvine. In March, 1892, Bessie Piner, aged 12 was indentured to Lewis Green, of Norwood, and he was to provide for and educate her and in return she was to give her services until she was 21. The other day Bessie ran away and returned here to her mother. When Green asked that she be returned to him, the mother refused and Green went before Alderman Garvin and demanded the child's return. The alderman decided in favor of Green and much against her will, Bessie went back to Norwood to-day.

THE NATIONAL GUARD.

HARRISBURG, Pa., Feb. 1.—The consolidated returned of the national guard of Pennsylvania for the year ending December 31, 1893, was transmitted to-day to the war department by Adjt-Gen. Greenland. The returns show the division is composed of 680 commissioned officers, 46 sergeant majors 26 quartermaster sergeants, 21 chief musicians, 18 ordinance sergeants, 4 commissary sergeants, 26 hospitals stewards, 16 sergeants, 1,039 corporals, 278 musicians, 5,688 privates and 95 members of the brigade band. The total number of enlisted men is 7,935, making an aggregate of 8,611.

A SUPPOSED FRAUD.

WEST CHESTER, Pa., February 1.—County Auditor John G. Moses made a discovery to day by which he believe she has unearthed a fraud by which the county has been swindled out of between $400 and $500. Mr. Moses, who is book-keeper for the Daily News came across paid bill for advertising which he says is a fraud. Other paid bills were found that are also said to be a swindle upon the county and which brought the total of the alleged frauds up to the sum mentioned above.

ARREST OF A MURDERER.

GETTYSBURG, Feb. 1.—Adam Carbaugh, the man charged with having murdered Jacob W. Waggaman by strangling him, was arrested to-day and is in the county jail to-night. He was arrested at his home in Franklin county near the Adams county line. The facts of the case now in possession of the Commonwealth will not justify a verdict of more than murder in the second degree.

—Let us have P's. Persons who patronize papers should pay, for the pecuniary prospects of the press have peculiar power, in pushing forth public prosperity. If the printer is paid promptly and his pocketbook kept plethoric by promptly paying patrons, he puts his pen to paper in peace, he paints his picture of passing events in more pleasing colors, and a perusal of his paper is a pleasure to the people. Paste this piece of proverbial philosophy in pumpkin pie order in some place where all persons may see it plainly.—Ex.

NOT SO GREEN AS HE LOOKED.

"Some queer characters can be seen almost any day in the mountain towns along the foot of the Alleghenies," said a business man yesterday. "Not long age I happened to be in a village among the hills, waiting in the hotel office until train time, when in came about as uncouth a specimen of the genus mountaineer as I ever saw in Pennsylvania. He approached the hotel proprietor and asked him if he wanted to buy some butter. The two went out to the farmer's wagon, examined the dairy product and returned to the office. Then a conversation took place about as follows: 'That's fine butter you have,' remarked the landlord. 'I don't know exactly how large our supply is, but will ask my wife.' Going to the telephone, mine host called up his wife, who was visiting her father's house, in which there was also a telephone. 'Hello! Is that you, Mary? There's a man here with some fine butter. Want any? Got enough? All right. Goodby.' Then, turning to the visitor: 'My wife says we have butter enough to last a long time.' The mountaineer, who had watched the telephoning process in open mouthed amazement, blurted out: 'Now, look a'here. What sort of a greeny do you take me fur? Think I'm fool enough to believe you have yer wife hid in that there darned little machine, do ye? If you didn't want any butter, ye might 'a said so, 'thout all that tomfoolery.' And he rushed for the street, before the landlord, choking with laughter, was able to offer an explanation."

SHROVE TUESDAY.

Last Tuesday, Feb. 6, is put down in the almanac as Shrove Tuesday, so called from the ancient practice in the church of Rome of confessing sins and being shrived or shrove—that is, obtaining absolution, on said day. Being the day prior to the beginning of Lent it may occur on any one between the second of February and the 8th of March. The character of the day as a popular festival is mirthful; it is a season of carnival-like jollity and drollery. The custom of dishing up "doughnuts" on Fastnacht has died out to some extent, but is still observed in many families. In former times the day was generally, if not universally, observed as a sort of festive day, with shooting matches, frolics, quilting, raffles, etc., but these old customs, like many others, are dying out.

CHAUNCEY'S SENTIMENTS.

Hon. Chauncey M. Depew recently expressed these sentiments on the farm question: "The happiest man in the world to-day is the successful farmer. He sits under his own vine and fig tree, undisturbed by the maddening noise of the city. Banks fail, railroads go into the hands of receivers, booming towns collapse and all business stagnates, but the wise farmer can snap his finger at these things. He is monarch of all he surveys on his broad acres. The honesty of his boys and the purity of his girls are guarded against temptation, and in them he is giving the country its best manhood and womanhood. The farmer is to be envied, and if he is not contented with his lot he is lacking in wisdom.

MANY WITNESSES.

Says the Millheim *Journal*: About fifty people from this section of the county are attending court to-day as witnesses in the case of I. W. Raven against the Millheim Turnpike Company. The outcome of this case, which is one of the most important at this week's court, is being watched with interest by those who are fully acquainted with the circumstances surrounding the same.

This is the case in which Mr. Raven asks large damages from the Turnpike company for injuries received on the pike. It is hardly likely the case will be reached this week.

COULD NOT SEE THE POINT.

During the trial of a case in Court, on Monday afternoon, the question of the stability of a certain section of farm fence came up for consideration and a witness, an ex-county official by the way, upon being asked if he thought it would turn cattle, responded:

"I don't know."

He was then asked if it would turn pigs; to which he replied, "I didn't try it."

He is now wondering why the court laughed.

—An exchange asks if you ever noticed that when a man drops a piece of meat on the floor, no difference how clean the floor may be, he will either give it a kick or pick it up and lay it to one side. He will never eat it. But let him drop his plug of tobacco on the street, and no difference how dirty the street may be he will pick it up, give it a careless wipe on his coat sleeve, or on the bosom of his pants and then take a chaw from it with a keener relish than ever.

—The new building of the First National bank of Tyrone, erected by Hoover Hughes & Co., the well known contractors of this city, will be ready for occupancy in a few days. The furniture and fixtures for the office were shipped to Tyrone yesterday and a force of men sent over to put everything in proper place. W. R. Williams, who did the carving, went over to-day to put on the finishing touches.—Philipsburg *Journal*.

DIED IN ALTOONA.

Mrs. Margaret Dhrew, after having attained the advanced age of 87 years, passed peacefully away at half past eight o'clock Thursday morning at the home of her son, Edward T. Dhrew, 1212 Tenth avenue, Altoona. She had been staying with her son, who is the proprietor of the Behm hotel, and one week ago was stricken with paralysis, which resulted in her demise.

Mrs. Dhrew was born in 1807 in County Limerick, Ireland, and was married there. With her husband, John Dhrew, she came to America forty-three years ago, locating in Newry, this county. Her husband followed railroad contracting and helped to build railroads in Huntingdon and Centre counties and in Maryland. He also constructed a reservoir in Washington, D. C. During these years the family lived at Broad Top, Bellefonte, Washington, D. C., New York city and other places. Mr. Dhrew died at Newbury, N. Y., 1869. His widow since then has made her home with her sons. She is survived by the following children: John, of Pittsburg; Edward T., of Altoona, and Mrs. Ellen Littleton, of Lake Shore, L. I. They were all with her when she died. Two other sons, Patrick and James, preceded her to the grave. The deceased was an earnest and consistent member of the Catholic church.

THE COAL REGION RIOTS.

The arrest of the ringleaders of the rioters who have been terrorizing everybody in the neighborhood of Mansfield and the seizure of the fire-arms and Anarchist literature, which show the riot to have been instigated by foreign enemies of law and order, will probably put an end to the burning of coal tipples and other mining property. The arrest may not end the strike in the Allegheny coal field for a little time, but the demonstration of the power of the authorities to make arrests and protect property will doubtless induce the great mass of the rioters, who are thus left without leadership, to keep the peace.

It appears that the ringleaders and all others who have been arrested for participation in these riots are aliens, there being scarcely a naturalized citizen in the whole crowd. They are not Americans either by birth or adoption, and evidently do not intend to seek citizenship. Their leaders, at least, are enemies of all law, and the rank and file appear to be too ignorant to realize the peril they are placed in by following Anarchistic leadership. It is probably true that the coal companies connived at their importation as a means of displacing higher priced labor, and have made the existing business depressions the excuse for still further reducing their wages. This cannot be justified, and those who have suffered loss of property in consequence of their own greed deserve no sympathy.

Order must be maintained, however, and the law respected and enforced, no matter what retribution the coal barons may have justly invited on themselves. To this end the rioters must be taught at any hazard or expense that rioting does not go in this country. Beyond maintaining the peace and punishing rioters the ordinary authorities cannot go. Upon Congress devolves the duty of preventing by rigid legislation the further importation for any purpose or under any plea or subterfuge of a horde of ignorant fanatical Anarchists ready with torch and bludgeon to turn this peaceful land into a pandemonium. We can control the existing riorous element, but we must put up the bars against the admissions of any more of it.

FIRED THE BUILDING.

NORRISTOWN, Pa., February 2.—Burglars with a horse and wagon drove up to Pool & Son's large merchant establishment in Lansdale, at 2 o'clock this morning, broke the glass in the door, opened the bolts and carried out $800 worth of goods. They were seen by railroad men, but the latter thought the goods were being removed by the firm for an early start for Philadelphia, which is not unusual.

After the robbers had loaded their wagons they set-fire to the place and escaped. For a time it looked as though the entire building would be destroyed, but the flames were finally subdued with a loss of $500, which is covered by insurance.

WERE DISCHARGED.

LEBANON, Pa., February 2.—The case of the commonwealth and officers and directors of the Lebanon Trust and Safe Deposit who were charged with embezzlement on the plea that they had received deposits while cognizant of the insolvent character of the bank, was heard before Alderman Miller to-night. The prosecution failed to make out their case and the defendants were discharged. They claim that the prosecution was brought by enemies of the bank for the purpose of gratifying a petty spite.

KILLED OUT OF SEASON.

A willing witness came down from near LaJose to attend license court at Clearfield, says the *Public Spirit*, to testify against a big hotel in that vicinity. The anxious testifier declared that "three peddlers had been killed in that hotel during the past year." The statement seemed to startle Judge Cyrus Gordon when he broke in with the interrogation: "Were any of them killed out of reason?" "Yes, sir," yelled the excited witness, "I know positively that two of them were."

—Port Matilda Castle, K. of G. E., is raising money for a new band.

S.S.S. CURES MALARIAL POISON

Nature should be assisted to throw off impurities of the blood. Nothing does it so well, so promptly, or so safely as Swift's Specific.

LIFE HAD NO CHARMS.

For three years I was troubled with malarial poison, which caused my appetite to fail, and I was greatly reduced in flesh, and life lost all its charms. I tried mercurial and potash remedies, but to no effect. I could get no relief. I then decided to try S.S.S. A few bottles of this wonderful medicine made a complete and permanent cure, and I now enjoy better health than ever.

Semi-Centennial Volume

The New York Ledger

For Fifty Years the Leading Illustrated National Family Weekly Paper of America.

CONTRIBUTORS OF THE "LEDGER":

The following gives only a partial list of the distinguished writers who will contribute to the *Ledger* during 1894;

Edward Everett Hale	Hon. James Bryce
Mrs. Ballington Booth	Olive Thorne Miller
George Kennan	Mary Kyle Dallas
Mary Lowe Dickinson	Mrs. N S Stowell
"Josiah Allen's Wife"	Amelia E Barr
Charles F Holder	Anna Katharine Green
Ajalmar H Boyeson	Theodore Roosevelt
Helen Campbell	Mrs. E D E N Southworth
John Habberton	Washington Gladden D D
S P Cadman	Hon Thomas Dunn English
Mrs M A Kidder	E. Werner
Eben E Rexford	Helen V Greyson
Elizabeth Olmis	Dr. Charles A Abbott
E A Robinson	Prof. Felix L Oswald

FEATURES OF THE "LEDGER":

Some of the features which will make the *Ledger* interesting to young and old are here enumerated:

Novels of American Life	The Womans World
Novels of Foreign Travel	Short Stories
Novels of Southern Society	Short Articles
Novels of Adventure	Explorations
Novels of Metropolitan Life	Household Advice
Biographical Sketches	Poems and Ballads
Popular Sketches	Home Culture
Principles of Etiquette	Health Suggestions
Stories of Adventure	Articles of Travel
Popular Information	Historical Sketches
Humorous Anecdotes	Popular Miscellany

A Four-Dollar Paper for Only Two Dollars.

Our Thanksgiving, Christmas, Easter and Fourth-of-July Numbers, with beautifully illuminated covers, will be sent without extra charge to all our subscribers.

THE PROCTER & GAMBLE CO., CIN'TI.

5 TO 20 DOLLARS PER DAY Easily Made.

We want many men, women, boys, and girls to work for us a few hours daily, right in and around their own homes. The business is easy, pleasant, strictly honorable, and pays better than any other offered agents. You have a clear field and no competition. Experience and special ability unnecessary. No capital required. We equip you with everything that you need, treat you well, and help you to earn ten times ordinary wages. Women do as well as men, and boys and girls make good pay. Any one, anywhere, can do the work. All succeed who follow our plain and simple directions. Earnest work will surely bring you a great deal of money. Everything is new and in great demand. Write for our pamphlet circular, and receive full information. No harm done if you conclude not to go on with the business.

VIGOROUS HEALTH FOR MEN

THE PASTILLE CURE FOR NERVOUS DEBILITY TRADE MARK

Prof. HARRIS' SOLUBLE MEDICATED **Pastille**

Has been put up in a proprietary form since 1878, and has been used for years prior to that time in private practice. It is no untried nostrum, of doubtful reputation, but a genuine specific for a very prevalent disease. Thousands of men, of all ages, have at some time in life brought on nervous debility and exhaustion, with organic weakness, by over brain work, excesses, too frequent indulgence or indiscretion and vicious habits, and it is to these that we offer a remedy that will, by its direct action upon the seat of the disease, stop the drain and restore the patient to vigorous health and strength.

Our method of introducing Prof. Harris' Pastille treatment is one which commends itself to all sensible persons—for the reason that we supply it upon their judgment of its value. We ask of our patrons nothing in the way of expense beyond a postal card and a two cent postage stamp. The postal card to be used in sending us their full address and the postage stamp for the letter returning the statement of their case for which we supply them with a question blank, to be filled out and an envelope addressed to ourselves for use in returning it when filled.

FREE TRIAL PACKAGE. When we receive the statement on blank we prepare eight days' treatment and forward it by mail and prepay postage thereon—and along with these eight days' treatment we send full directions for using. The treatment in no way interferes with a person's attention to business, and causes no pain or inconvenience in any way.

We are so positive that it will give perfect satisfaction that we leave the matter of sending orders entirely with those using the free trial treatment. Having satisfied those sending for trial packages of our ability to benefit their bodily condition we feel that they are more largely interested than ourselves in continuing the use of the Pastilles. Even then we do not attempt to rob them by demanding high prices. On the contrary, we make the prices as low as possible, and the same to all. They are as follows: $3 for one month; $5 for two months; $7 for three months.

These prices secure the delivery of the Pastilles by mail. If desired by express we leave the patient to pay the charges. For over ten years we have operated our business upon this plan with satisfactory results.

We ask all persons needing treatment for any of the secret ills which come to mankind through a violation of nature's laws to send us their address on postal card or by letter and allow us to convince them that PROF. HARRIS' SOLUBLE MEDICATED PASTILLES have merit and are what they need.

All communications confidential and should be addressed to

Large 2 1-4 lb. can, by mail, $1.25. Six large cans, $5, express prepaid. Sample copy of The Best Poultry Paper sent free. Farm-Poultry one year (price 50c.) and large can $1.50. L. S. JOHNSON & CO., 22 Custom House St., Boston, Mass

ONLY A LEAD PENCIL.

A common, ordinary lead pencil was the means of me very near losing my life in this place, said a traveling man to a NEWS reporter yesterday. When asked how so the gentleman said:

It was about fifteen years ago and the occasion of my first visit to Bellefonte. I came in on the late train from Tyrone and was one of perhaps a crowd of a dozen traveling men. On the train was Mr. D. G. Bush, the owner of the Bush House, and to each one of our crowd he gave a lead pencil, on which was printed an advertisement of his hotel. When the train pulled in to the depot I got off on the west side and, stepping back on a side track, took out the lead pencil Mr. Bush gave me to see where the Bush House was located. At that time the railroad tracks here were not protected and guarded as they are now. While reading I took no notice as to what was going on around me until some one cried out "jump, stranger;" I jumped, but not quick enough to evade being struck by the locomotive and thrown forward against the train; though fortunately, I was so far off the track that I received no injury whatever, save a slight shock.

The engine, it appears, was backing on a side track to attach to the other end of the train, a fact I did not then know of. At about the same time I made my narrow escape there was a splash and a cry from the other side of the train which, upon investigation, proved to come from two of our party who had stepped off the train into the mill race. All in all I thought my first introduction to Bellefonte not very auspicious, but I have been here quite often since and can freely say there is no town I am more pleased to visit.

FIRE AT STATE COLLEGE.

About half-past six o'clock on Wednesday evening fire was discovered in one of the student's rooms in the preparatory department on the fifth floor of the Pennsylvania State College. The fire started behind a radiator and burned the floor out so that the radiator fell through to the fourth floor. The flames also went up between the partition to the attic but were then stopped before they had a chance to spread. The fire department in the College is ample and it was no time at all until the students had the conflagration completely drowned out. The damage, which is as much by water as by fire, will probably aggregate a couple hundred dollars; of course, covered by insurance. It is not known how the fire originated.

It was a very fortunate thing that the fire occurred at the hour it did, when all the students were around. Had it been late at night there might have been a serious conflagration, and the probable destruction of the entire building.

BASE BALL NOTES.

Walters has signed a contract for the coming season to play with the Altoona club.

Pitcher Hodson; infielder Wetzel and centre fielder Hogan have signed with the Scrantons for the season.

Willis Mackey, a promising young player, whose home is in Altoona, will guard left field for the State College club the coming season.

The State league will meet in Harrisburg in two weeks, at which time the circuit will be decided and the schedule for the coming season arranged.

James J. Corbett says he will play with the Baltimore club during July and August if Manager Hanlon will give him $10,000. Jim does not want much.

Pitchers George Hodson and Mark Baldwin and Second Baseman George Reed will coach the State college team during the month of February, after which the club will go south on a spring trip, and play the principal universities of the south.

IMPORTANT DECISION.

For some time the proprietors of opera houses and theatrical companies have been uneasy over the fear that under an act of the assembly a license of $50 would have to be paid in every county. The act is rather vague and uncertain. On Monday Mr. Greenberg, manager of the Huntingdon opera house, came to Bellefonte and submitted the matter to Judge Furst for consideration. On Wednesday the court rendered an opinon to the effect that proprietors of opera houses were to pay an annual license of $50 to the county treasurer, and that no license fee need be paid by the companies giving entertainments.

This seems to be the reasonable construction of the law and it is about the proper thing.

A BUSINESS JUDGE.

In dismissing the Grand Jurors, Judge Bell, of Blair county, took occasion to deplore the lack of judgment on the part of certain Justices in sending so many petty cases to Court, which cases could have easily been settled and should never have gone so far. He said he was not positive whether or not he could impose the costs of such cases on committing magistrates, but if such authority is warranted by any statute of the Commonwealth he will enforce its provisions. The committing magistrates of the county returned 156 cases to Court. The Justices evidently think the more cases they return the more work there will be for the lawyers. And so the good work goes on.

THE MINING BULLETIN.

The mining and engineering department of the Pennsylvania State college has issued the first of a series of bimonthly publications to be known as The Mining Bulletin. The editor is M. C. Ihlseng, professor of mining engineering, assisted by H H Stock and T C Hopkins, instructors in the same department. Its object is to give a brief outline of current progress in mining and its allied professions and to serve as a bureau of information upon all matters of interest to producers and manufacturers of Pennsylvania and neighboring states. The bulletin, like those by the agricultural experiment station, will be sent to any desiring it.

LICENSE APPLICANTS.

The following have filed their applications with the prothonotary for liquor license in Centre county for the ensuing year:

HOTEL LICENSES.

John M. Neubauer, Bellefonte; W. A. Musser, Millheim; Willis Weaver, Millheim; Richard Miller, Philipsburg; Tempest Slinger, Philipsburg; Richard Bowen, Philipsburg; Tatersall Ingram, Philipsburg; R. Q. Braucht, Coburn; Samuel B. Shaeffer, Madisonburg; John B. Swoope, Philipsburg; D. H. Ruhl, Spring mills; Jeffrey Hayes, Philipsburg; W. Frank Branford, Old Fort; A. L. Nearhood, Rebersburg; J. L. Dehass, Howard; W. L. Laggett, Bellefonte; Geo. E. Leister, Philipsburg; James Passmore, Philipsburg Michael McCabe, Snow Shoe; Lawrence Redding, Snow Shoe; John G. Uzzel, Snow Shoe, D. L. Burgess Snow Shoe; R. G. Askey, Rush township.

OTHER LICENSES.

N. W. Eby, Woodward, distiller; Jno. Mulfinger, Pleasant Gap, distiller; Wm. Riley, Philipsburg, wholesale beer; Jno. Dein, Philipsburg, wholesale beer; W. R. Hayes, Snow Shoe, wholesale beer; John Anderson, Bellefonte, wholesale beer; Orin Vail, Philipsburg, wholesale liquor.

A number of others will file their applications between this and the 13th of February. License court will be held about the first week of March. From the above list it will be noticed that there are many new applicants where no license has been granted for a number of years.

LEFT ALONE TO DIE.

Adic Hallberg died near Ridgway last Monday. The young man had been working at the mines at Carman, Elk county for some time. On Monday he with several other miners left Carman on their way to Ridgway. While on the route the young man was taken sick and sat down. He was left alone, and on the following morning his body was found along the road. The coroner's jury rendered a verdict that he came to his death by exposure. The deceased had been ill for some months and had been under treatment. A post mortem examination was made and it was found his lungs were badly effected. The deceased was about 25 years of age.—Renovo News.

A COUNTERFEITER CAUGHT.

For some time there has been a good deal of counterfeit money circulating around Hastings and Spangler. The source was unknown until the other day, when Larry Platt, a well known character of Hastings, went to Punxsutawney, and becoming full of distilled spirits, worked his mouth too much and gave away enough information to lead to his arrest on suspicion. His room was searched and a complete outfit for making dollars of a cheap material and then electroplating them was found. Two dollars were found in the plating machine receiving a coat of silver. Upon advice of his arrest authorities from Pittsburg put in an appearance and took Platt to Meadville, where he will be tried at the next term of the United States court.

COURT ENDED.

The third week of Centre Co. court ended this morning with the verdict in the Ward vs Boswell case. The last four days were taken up with the trial of the following cases:

B. F. Nearhood vs. Jonathan Auman, in which the plaintiff was non-suited.

Elizabeth D. Kunes vs. John B. Shaw, et al., in which a verdict was given in favor of the defendant.

In the case of J. M. Ward vs. Walter Boswell, an action to test the title to a property on Lamb street, Bellefonte, in which a verdict was given in favor of the plaintiff. This ended the work of the week, leaving eleven important cases, which were down for trial, to be continued.

—An Osceola sportsman claims to have killed sixty partridges, four coons, two owls and two rabbits since the first of January.

HOLIDAY CHEER.

The holiday season is close upon us, and every household in the land is prearing for the plum pudding, and the general and feasting and rejoicing. A little good brandy for the mince pie, rum for the pudding, for a little stimulant to keep the spirits up and the cold out, is absolutely necessary for an old time Christmas cheer. One of the most prominent liquor dealers in the country, Mr. Max Klein of Allegheny, Pa., whom we can cheerfully recommend, and who has the reputation for handling only absolutely pure liquors, will sell you the following brands of six years old pure Penn'a Ryes, at $1.00 per full quart or six for $5.00: Bear Creek, Gibson, Guckenheimer, Finch, and Overholt. The famous Silver Age, the finest whiskey in the country at $1.50 and Duquesne, a whiskey distilled from Rye and Malt, at $1.25 per quart, Guckenheimer 4 years old, at 75c per quart, and the Anchor Rye at 50c. You can have your choice of all kinds of California Wines, Gins, Rum and Brandy, all pure, and old, at from 50 cents per quart up.

All goods bottled and bearing the signature of Max Klein for sale by S Shloss Agt Williamsport.

LENTEN REGULATIONS.

Rules That Are to Be Observed by Faithful Catholics in the Diocese of Pittsburg.

The following Lenten regulations issued by Bishop Phelan do not differ from those which have been in force in past years. The season of fast and other mortifications begins next Wednesday and will conclude with Saturday, March 24. The signature of the bishop is attached to the following:

1. All the faithful who have completed their 21st year are, unless legitimately dispensed, bound to observe the fast of Lent.

2. They are to make only one full meal a day, excepting Sunday.

3. The meal allowed on fast days is not to be taken till about noon.

4. A small refreshment, commonly called collation, is allowed in the evening. No general rule as to the quantity of food permitted at this time is or can be made, but the practice of most regular Christians is never to let it exceed the fourth part of an ordinary meal.

5. In the morning a piece of bread, not exceeding two ounces, with a drink of coffee, tea or chocolate, or any similar beverage, can be taken.

6. When the principal meal cannot be taken about noon, it is lawful to invert the order, by taking the collation in the morning and the dinner in the evening.

7. In preparing food that is permitted, lard or fat may be made use of.

8. The following persons are exempt from the obligation of fasting. Young persons under 21 years of age, the sick, pregnant women, or those giving suck to infants, persons obliged to hard labor, fast without great prejudice to their health.

9. By dispensation, the use of flesh meat will be allowed at all meals on Sundays, and once a day on Mondays, Tuesdays, Thursdays and Saturdays, with the exception of Saturday in Ember week, and the last Saturday of Lent. The use of butter, cheese, milk and eggs is also permitted every day in Lent. The use of flesh meat and fish at the same meal on any day, even on Sundays, is forbidden.

10. Persons dispensed from the obligation of fasting are not bound by the restriction of using meat only at one meal on days on which its use is granted by dispensation. Those who are obliged to fast, are permitted to use meat only at one meal.

11. The time for making the Easter communion will date from the first Sunday in Lent till the Sunday within the Octave of Ascension (May 6th) inclusive.

The use of flesh meat on Saturdays throughout the year is allowed, for a term of years, by dispensation from the holy see.

DELEGATE ELECTIONS.

The Republicans of Centre county will meet at their respective voting places in the several election districts in the County, on Saturday, March 3rd, 1894, for the purpose of electing delegates to the County Convention. The delegates chosen at that time will meet in Bellefonte at the Court House on Tuesday, March 6th, at 11.30 o'clock a. m., for the purpose of electing two delegates to the State Convention, which convenes at Harrisburg on May 23rd, 1894, and for the transaction of such other business as may properly come before the convention.

Under the rules of the party the number of delegates to which each precinct is entitled is as follows:

The primary elections for delegates will be held under the supervision of the district committemen, who will see that the proper election officers are designated and in attendance.

In the Boroughs of Bellefonte, Centre Hall, Howard, Milesburg, Millheim, Philipsburg, Unionville and South Philipsburg, and in the Townships of College, Howard, Potter, Snow Shoe, Union, Rush, Spring, Boggs, Worth, Harris and Ferguson, the polls will open at 7 p. m. and close at 9 p. m. and in the remaining districts will open at 2 p. m. and close at 5 p. m.

WILBUR F. REEDER, Chairman.

AN UNKNOWN MAN KILLED.

The Beech Creek passenger train, on its way to Munson Station, ran over an unknown man about 7.30 Friday evening, at a point one mile east of Morrisdale, inflicting such injuries as to result in his death. The trammen were not conscious of having run over the man, and he was not found until two hours afterwards, when a gentleman walking along the track discovered the lifeless body thrown against the embankment. He was badly mangled, and there was nothing about his person to indicate his name or the place of his residence. He had in his possession a pocket book containing $5.20 in money, a watch, finger ring and a few other trinkets, and a small package containing some catables. The unfortunate man was aged about 40 years, medium weight, about 5 feet 8 inches in height, and had black curly hair and light moustache and small goatee. His body was brought to Morrisdale and placed in charge of the Morris township authorities for burial.—*Philipsburg Journal.*

Mr. J. H. Stillman

"I am Truly Thankful

For Hood's Sarsaparilla. During the war I contracted **typhoid fever,** and fever and ague, leaving me with **malarial and mercurial poisoning** from which I have suffered ever since, in neuralgia, rheumatism, **nervous prostration** and general debility. Since I began taking Hood's Sarsaparilla I have not lost a day's work in three months, weigh **10 lbs. more** than for years and am in better health than any time since the war." J. H. STILLMAN, Cheltenham, Pa. **HOOD'S CURES.**

Hood's Pills Cure Liver Ills. 25c.

A Startling Story.

One of Civil and One of War Life.

A BRAVE MAN WINS A MEDAL AND A WOMAN FINDS A PRIZE.

They Will Both Interest You and Tell You Just What You Want to Know.

A most fascinating story comes to us from Montpelier, Vt., concerning Mr. Wallace W. Noyes and his wife, prominent people of that city. Mr. Noyes fought all through the war with distinguished bravery. He was in the battle of the Wilderness, Spottsylvania, Cold Harbor,, Petersburg, Winchester, Cedar Creek and others.

He was wounded April 2d, 1865, at Petersburg. He is one of the few privates who have ever received a medal of honor from the U. S. government for distinguished bravery. He stood on the wall of the fort at Spottsylvania in the bloody angle, and was the only man that lived in that spot. Mr. Noyes was wounded seven days before the final surrender, and up to that time never lost a day during the whole war, enlisting when 17 years of age.

His wife had an equally interesting experience. We give it to our readers in her own words expressed in the following letter:

"I was completely run down," she said "and my nerves were in a very weak condition. I had no refreshing sleep and felt tired and dragged out all the time. I was so extremely nervous that when the door bell rang I would scream out and if any of the children dropped anything it would affect me the same way.

"My work was very hard and exhausting at that time. My appetite and digestion were very poor, and what I did eat did not do me much good. I was one day going to my family physicians for help, not being able to work any longer in that condition.

MRS. WALLACE W. NOYES.

"I had read and heard a great deal about Dr. Greene's Nervura blood and nerve remedy, and that day I took up a paper and saw more of the testimonials. That very day I got a bottle and commenced taking it. Before I had taken the first bottle I could see that it was helping me and I was feeling better.

"I have now taken five bottles and do not feel the need of any more, being completely cured. I sleep well and have a good appetite. If I should be taken again I should take Dr. Greene's medicine. Please publish this to the world for the good of everyone."

What greater prize could the world contain than a medicine which can cure such suffering as that? Dr. Greene's Nervura blood and nerve remedy is constantly performing the most wonderful cures all over the land.

Are you sick, weak or in pain? Then take this wonderful medicine and it will surely cure you. You need it especially at this season to prepare your system for spring. You need not fear to use it, for it is purely vegetable and harmless and is the discovery of Dr. Greene, of 35 West 14th Street, New York City, the most successful specialist in curing nervous and chronic disease. The doctor can be consulted at his office free, personally or by letter.

THE PUZZLE SOLVED.

Perhaps no local disease has puzzled and baffled the medical profession more than nasal catarrh. While not immediately fatal it is among the most nauseous and disgusting ills the flesh is heir to, and the records show very few or no cases of radical cure of chronic catarrh by any of the many modes of treatment until the introduction of Ely's Cream Balm a few years ago. The success of this preparation has been most gratifying and surprising. No druggist is without it.

PUT A PISTOL IN THE FIRE.

TYRONE, Feb. 3.—While breaking up an old stump for fuel at this place to-day a tramp discovered a rusty revolver covered with ice and snow.

He placed it in the fire to thaw it out, and a moment later the heat caused the discharge of the weapon, the ball passing through his leg. He is now in the Altoona hospital for repairs.

NOT MANY CAPTURED.

POTTSVILLE, Pa., February 6.—The entire police force and fifteen coal and iron policemen have been engaged to-night in making a complete roundup of all the tramps that have been swarming around Pottsville the past few weeks. This work is being prosecuted diligently in search of a man with a big lump on his neck who attempted to ravish a little 12 year old girl named McElrath. Up to this hour more than a dozen tramps have been safely lodged in the police station.

MR. CHILD'S FUNERAL.

The Arrangements for the Interment Have Not Yet Been Completed.

PHILADELPHIA, February 4.—In many of the churches in various denominations to-day the death of George W. Childs was feelingly referred to by the officiating clergymen, and his passing away was pronounced a public loss and bereavement.

The arrangements for the funeral of Mr. Childs have not been completed yet, but it has been decided that it shall be held at 1 o'clock Tuesday afternoon from St. James' Protestant Episcopal church, of which Mr. Childs was a member for years. Who will be asked to be pall bearers is still undecided, as it is difficult to make a choice for the sad honor among Mr. Child's host of friends in this and other cities. Even the question of the place of his interment is still a matter of doubt Mr. Childs had a lot in Laurel Hill cemetery, but to many of his intimate friends it seems appropriate that he should be laid to rest in the same mausoleum in Woodlawn cemetery that contains the dust of his friend and companion of life, the late A. J. Drexel. Whichever is decided upon, however, the interment will be private.

The employes of every department of the Public Ledger met in the composing room of the paper this morning to take appropriate action upon Mr. Child's death. The meeting was called to order by L. Clark Davis, managing editor of the paper, who moved that Col. M. Richard Muckle, cashier of the Ledger, preside. Colonel Muckle took the chair and after a few feeling and touching words in reference to the object of the meeting, called upon Mr. Davis to address his fellow employes. Mr. Davis spoke eloquently of Mr. Child's many beautiful traits of character and his sympathetic and kindly relations with his employes. Speeches were made in the same vein by William V. McKean, the aged veteran editor of the Ledger; Mrs. C. F. Hallowell, editor of the woman's department; Dr. William Hilt, of the local staff; Henry S. Stiles, assistant cashier; John W. Keater, for the compositors, and Joel Cook, business manager of the paper. Addison B. Burk, chief editorial writer presented resolutions, that were unanimously adopted, expressing the sense of loss felt by the employes of the Ledger in Mr. Child's death. It was also decided that the Ledger employes attend the funeral in a body.

LOVE'S YOUNG DREAM.

Love's young dream was a very bright one, and its fulfillment will be bright, too, if the bride will remember that she is a woman, and liable to all the ills peculiar to her sex. We remind those who are suffering from any of these, that Dr. Pierce's Favorite Prescription will renew the hue of youth in pale and sallow cheeks, correct irritating uterine diseases, arrest and cure ulceration and inflammation, and infuse new vitality into a wasting body. "Favorite Prescription" is the only medicine for women, sold by druggists, under a positive guarantee from the manufacturers, that it will give satisfaction in every case, or money will be refunded. This guarantee has been printed on the bottle-wrapper, and faithfully carried out for many years.

LOOTED FREIGHT TRAINS.

COLUMBUS, O., Feb. 3.—William Samsell was arrested here to-day and taken to Columbiana on the charge of burglarizing cars on the Ft. Wayne road. Samsell confessed to being one of a gang of men who have systematically looted freight trains on this road. At Columbiana there is a heavy grade where the trains are compelled to slow up. It has been the practice of the gang to board the cars at that point and throw off goods and conceal them under a culvert from which place they were carried away in a wagon.

It is said the robbery has been on the wholesale plan and the railroad detectives have been working on the case for a long time. A part of the stolen goods were located in the cellar of a man named Howell and the fact was tipped off to the members of the gang, who escaped.

FRUIT TREES,

Shade and Evergreen Trees and Grape Vines. A general assortment for Spring planting. I have also for sale a pure article of Cider Vinegar, neither watered nor drugged. Prices on application. Unionville, Fleming P. O., Centre Co., Pa.

2-1-3t. W. P. FISHER.

A CHURCH DEDICATED.

CARLISLE, Feb. 4.—St Patricks' Catholic church, costing $26,000, was to-day dedicated and consecrated with appropriate religious services, it being the 115th anniversary of the congregation. The sermon was delivered by Right Reverend Leo Haid, D. D., Bishop of North Carolina, and he was assisted in the ceremonies by Rev. William Loughlin, D. D., Chancellor of the Archdiocese of Philadelphia; Rev. William Keran, D. D., and Rev. P. T. Gurley, D. D., of Philadelphia, and a number of other dignitaries of the church from all sections of the country were present. Governor Pattison, of this state, was also present.

The evening exercises were conducted by Right Reverend P. Leander, D. D., O. S. B. Abbott, of St Vincent's Benedictine Monastery, of Latrobe, Pa., as celebrant. The sermon was delivered by Rev. Timothy O'Leary, S. T., Superior at Conswago. Fully 1,000 people participated in the services. Governor Pattison returned to Harrisburg this evening on a special train.

BEECHAM'S PILLS

(Vegetable)

What They Are For

Biliousness	sick headache (megrim or hemicrania)	wind on the stomach	backache
indigestion (dyspepsia)	nervous headache	pain or oppression around the heart	pain in the side
sickness at the stomach (nausea)	dull headache	fluttering of the heart (palpitation)	heaviness
heartburn	jaundice	irritability	disturbed sleep
loss of appetite (anorexia)	pimples	nervousness	nightmare
coated tongue	fulness of the stomach (distention)	depression of spirits	hot and throbbing head
bad taste in the mouth	shortness of breath (dyspnoea)	great mental depression	coldness of hands and feet
torpid liver	dizziness (vertigo)	general debility	hot skin
			sallow skin

when these conditions are caused by constipation; and constipation is the most frequent cause of most of them.

One of the most important things for everybody to learn is that constipation causes more than half the sickness in the world, especially in women; and it can all be prevented. They who call the cure for constipation a cure-all, are only half-wrong after all.

Write to B. F. Allen Company, 365 Canal Street, New York, for a little book on CONSTIPATION (its causes consequences and correction); sent free. If you are not within reach of a druggist, the pills will be sent by mail, 25 cents a box.

NEW YORK'S UNEMPLOYED.

What a Tabulated Census Prepared by Seth Low Shows.

NEW YORK, February 6.—Mayor Gilroy to day received from President Seth Low and Professor Richard Mayor Smith, of Richmond college, the tabulated results of a census of the unemployed of this city, taken by the police and the direction of Professor Smith. The census is taken by precincts, and the table shows the number of unemployed in each precinct. The thirty-three precincts into which the city is divided show the number of families suffering from lack of employment to be 48,681, consisting of 208,701 persons. Of these the number usually employed is 78,023. The number out of work is 67,280, or 52,593 males and 14,688 females. Of the 48,681 families who were asked the question:

"Are you in need of assistance?"

Thirty-nine thousand three hundred and seven responded. "Yes," and 9,370 responded "No."

Accompanying the table were letters from Professor Smith and President Low. The former writes a commentary upon the figures. It shows, he says, that there are more unemployed in the Thirtieth precinct than any other of the precincts, but that there is really more distress in the Fourth precinct, where out of 1,168 unemployed families, 1,023 are actually in need of assistance. It shows further that 80 per cent. of the families whose bread winners are unemployed are in need of assistance. This includes about 165,360 persons who lack the necessaries of life.

President Seth Low in his letter, says: "It is clear that the city and the citizens are face to face with a problem of the first magnitude. I cannot imagine a more impressive argument in favor of prompt action upon the tariff, which shall be decisive in one direction or the other, in order that the element of uncertainty may be removed from the pathway of a business revival. In the meantime whatever work can be given should be given by the city and private persons. The strong should help the weak."

It is inexcusable in persons to go to church and disturb the public worship, or go to a public meeting and annoy the audience by unseemly exhibitions of themselves in coughing, when a few doses of Dr. Bull's Cough Syrup, that peerless remedy for cough and cold, will surely cure their cold. Try it.

KILLED A HIGHWAYMAN.

VALLEY FORGE, Pa., February 4.—A highwayman who attempted to hold up and rob Station Agent E F Kunkle last night was shot dead in his tracks by that fearless official. The dead robber is Amos Kuen, a negro.

Kunkle was stopped on his way home shortly before 8 o'clock from the Philadelphia and Reading Railroad station. At a lonely spot Kuen, wearing a mask and carrying a big club, stepped up and told the station agent to halt.

"What is the matter?" asked Kunkle. For a reply Kuen raised his club as if to strike. An instant later the station agent jerked a revolver from his pocket and, in quick succession, fired two bullets at the robber. The latter dropped in his tracks a dead man. One ball had pierced his heart.

Kunkle was afterward arrested. He had in his pocket $125 belonging to the company. Kuen was familiar with the station agents habits, and understood that on Saturday night he carried home a large sum of money. Kunkle is a married man, and will remain in custody at least until the coroner's jury has decided upon a verdict. Kuen is survived by a widow.

WANTS TO COMMIT SUICIDE.

HUNTINGDON, Pa., February 4.—After several futile attempts at suicide within the last four days, Andrew Wagner, aged 50 years, living with a large family at Mapleton, stealthily left his home this morning and, throwing himself into the Juniata river, soon disappeared beneath its surface. He was rescued and restored to partial consciousness by severe measures. It is thought he cannot recover. Wagner had been temporarily deranged through despondency over long idleness and undue religious zeal.

A GANDER WITH TEETH.

NEW CASTLE, Feb. 5.—John Wilcox, of Plaingrove township, has a curiosity in the shape of a gander with teeth. The fact was not discovered until yesterday, when the gander caught hold of Mr. Wilcox by the sleeve while being divested of some of its surplus feathers. He felt the teeth clear through his overcoat and upon examination found that they were about a quarter of an inch long. The bird is attracting much attention.

ELECTION PROCLAMATION.

MERCER, Feb. 6.—The Court rendered an important opinion to-day as to the meaning of the Ballot Law approved June 10, 1893, in reference to how the notice of election should be given, in which Judge Mehard says:

It shall be the duty of the Sheriff to give notice of election by proclamation posted up in the most public places in each voting district or by advertisement in at least two newspapers but shall not do both; and he has the privilege of taking his choice.

FOUL PLAY SUSPECTED.

POTTSVILLE, Pa., February 6.—At a late hour to-night W. C. Hock, of Tremont, received a telegram from Middlesborough, Ky., stating that the body of Angel Sanner, has been found in the river at that place. Sanner, who is a native of Tremont and who has been a coal operator in Kentucky for some years, mysteriously disappeared some weeks ago, and foul play is supposed to have overtaken him. He has a young wife but no children. The body has been shipped on here.

—There are 3,000 pores to every inch of skin on the body. These pores are openings for the hair like sweat glands, which turn and coil until, in the body of an ordinary sized person, their length represents a distance of twenty-eight miles. If through a lack of bodily cleanliness the openings of this immense system of drainage becomes clogged, the result is apparent to a reasoner. Perspiration through these pores is nature's method of throwing off effete matter, and it cannot be done without the help of bathing. Without a clean body it is not possible to keep a good complexion.

—Mr. Harry Jackson, son of Mr. Geo. Jackson, is now in Japan. Harry is an officer on the grand ship Rio Janeiro. When in foreign countries he remembers the folks at home and sends them gifts of much value and great interest. Among the rare and beautiful articles from Japan are two coats of arms, skillfully embroidered on black satin. He has sent other gifts of equal value and attractiveness. Harry enjoys his life on the sea and in visiting strange countries, and is advancing rapidly in Uncle Sam's marine service.

LETTER LIST

Following are the letters uncalled for in the post-office, Bellefonte, Pa., Feb. 5, 1894.

You push the button, the machine does the rest. Bright, polished dishes, and cheerful wives. No scalded fingers, no soiled hands or clothing. No broken dishes, no noise. Cheap, durable, warranted. Circulars free.

W. P. HARRISON & CO., Clerk No. 15, Columbus, O.

A PERILOUS PASSAGE.

The Steamer Taormina From Hamburg Ran Through Two Hurricanes.

NEW YORK, February 4.—The Hamburg line steamship Taormina, Captain Koch, arrived to-day from Hamburg, after a perilous voyage lasting twenty-two days. She encountered two severe hurricanes in the gulf stream, in one of which her main mast was snapped off close to the deck. The Taormina brought 133 steerage passengers.

In the early part of the voyage, the weather was fair. When near Sable Island she encountered a hurricane from the south east. The hurricane continued nearly forty-eight hours.

At 7 o'clock on the morning of the 31st ult., with a big sea broke on the deck and the men at the wheel lost control of the vessel. The bolts in the main boom were loosened and the boom, thresh ing about, struck lifeboat No 3 on the star board side knocked it overboard. Afterward the boom, swinging with the roll of the ship, carried away the lee rigging of the main mast, and the mast, losing its bracers, snapped off and went overboard to starboard. It was only by long and troublesome work that the crew were able to clear away the wreck.

Oil in large quantities was poured on the troubled waters while this work was in progress.

Meanwhile the steerage passengers below decks were in an agony of terror. Some men were for hours on their knees praying, while others staggered about and cursed. They were pitched this way and that by the lurching of the vessel. When the mast went by the board women screamed and some became hysterical. All expected the ship to go down. Captain Loch went among the men and women and by personal appeals succeeded in allaying their fears somewhat. In the height of the storm Steward Huberiet fell on the deck and was seriously injured internally.

The big wave that swept over the deck broke a capstan, stove in a hatch and twisted the rails and the deck fittings. The hurricane subsided on February 1, but head winds were encountered, delaying the ship five or six days.

A VIOLENT LUNATIC.

MEDIA, Pa., Feb. 4—Information has been received here by friends of Prof. Swithin C. Shortlidge, who recently shot his wife dead and is now confined in the Norristown Insane Asylum, that his condition shows very little improvement. His insanity seems to be more pronounced than ever. It is the opinion of the physicians in charge of his case that he will never show much improvement or regain his reason. At times the professor shows a disposition to be vicious. He took one of his attendants at the asylum for the cook in the Media jail.

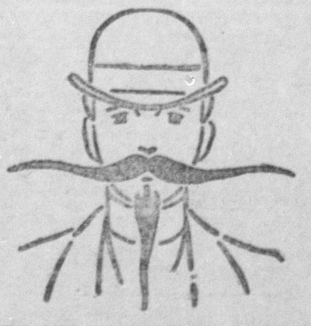
"I know you," he said, "you are the cook from the Media jail. You are the man who put poison in my milk," and then like a flash he grasped the attendant by the throat, and would have strangled the man had not he been prevented by other attaches of the asylum.

MURDER AT CHESTER.

CHESTER, Feb. 3.—John Saunders, who was stabbed in the stomach during an altercation last night by James Lynn, died at 1 o'clock this morning at the Chester hospital. The police did not learn of the affair for some time after the fight, but succeeded in arresting Lynn at his boarding house shortly after the death of Saunders, and he is now in jail. There were few witnesses to the affair and Lynn refuses to say anything. He has employed counsel.

Frank Farrell, of Philadelphia, was with Saunders when the fight occurred, but, as the men had been drinking, he remembers very little about it. He was unacquainted with Saunders, but had requested him to direct him to the residence of John Mossey after they had made a stop at James McKane's hotel. William File, a young newspaper carrier, assisted Saunders to Buchanan's drug store, where the flow of blood was temporarily stopped and subsequently he was removed to the hospital.

Lynn, who did the stabbing, bears a good reputation and is a man of family, while the murdered man was about 30 years old and unmarried.



LOOK AT THESE POINTS, showing where Dr. Pierce's Pleasant Pellets excel the ordinary pills:

They're smaller; easier to take; easier in their ways. No griping; no disturbance; no reaction afterward.

Their influence *lasts.* By their tonic or strengthening effects on the intestines, they increase the *natural* action of the bowels, and permanently *cure* Constipation, Biliousness, Jaundice, Indigestion, Dizziness, Sour Stomach, Sick or Bilious Headaches, and every like disorder.

Any child takes these tiny, sugar-coated Pellets readily. They're put up in little sealed vials, and thus kept always reliable, while they can easily be carried in the vest-pocket.

Nothing else at any price is as *cheap,* for they're *guaranteed* to give satisfaction, or your money is returned. You pay only for the good you get.

No substitute that a tricky dealer is ready to urge, though it may be better for him to *sell,* can be "just as good" for you to *buy.*

Use ST. JACOBS OIL FOR PAINS RHEUMATIC, NEURALGIC, SCIATIC, And all the World Knows the CURE is SURE.

LECTURE ON FOOLS. ADMIT ONE

A gentleman who lectured on fools, printed his tickets as above. Suggestive certainly, and even sarcastic. What fools are they who suffer the inroads of disease when they might be cured. Dr. Pierce's Golden Medical Discovery is sold under a positive guarantee of its benefiting or curing in every case of Liver, blood and Lung disease, or money paid for it will be cheerfully refunded. In all blood taint and impurities of whatever name or nature, it is most positive in its curative affects. Pimples, Blotches, Eruptions, and all Skin and Scalp diseases, are radically cured by this wonderful medicine. Scrofulous disease may affect the glands, causing swellings or tumors; the bones, causing "Fever sores," "White Swellings," "Hip-joint Disease"; or the tissues of the lungs causing Pulmonary Consumption, whatever, its manifestations may be, "Golden Medical Discovery" cures it.

ATTEMPED TO LYNCH HALL.

LEBANON, Ind., Feb. 5.—At 12 o'clock the sheriff came out of the jail with Hall to take him to the circuit court. The mob made a lunge for him. The deputies pulled their guns and a scrimmage resulted. Three times the mob got a rope around Hall's neck, though it was promptly cut. It was a constant fight to the court room, several shots being exchanged. Hall was sentenced to twenty-one years and is now lodged in the judge's private office. He implores the officers to save him. The mob has surrounded the court house and declares that Hall will never go to prison alive. Judge Neath orders that 1,000 men be ordered to keep the peace.

THIS IS MEANT FOR YOU.

It has been truly said that half the world does not know how the other half lives. Comparatively few of us have perfect health, owing to the impure condition of our blood. But we rub along from day to day, with scarcely a thought, unless forced to our attention, of the thousands all about us who are suffering from scrofula, salt rheum and other serious blood disorders, and whose agonies can only be imagined. The marked success of Hood's Sarsaparilla for these troubles, as shown in our advertising columns frequently, certainly seems to justify urging the use of this excellent medicine by all who know that their blood is disordered. Every claim in behalf of Hood's Sarsaparilla is fully backed up by what the medicine has done and is still doing, and when its proprietors urge its merits and its use upon all who suffer from impure blood, in great or small degrees, they certainly mean to include you.

AN IMPORTANT QUESTION.

HARRISBURG, February 5.—As a result of the controversy over the selection of a site for the State Industrial school between advocates of Boiling Springs, Cumberland county, and Scotland, Franklin county, the attorney general has been asked for a writ of quo warranto to compel Captain George W. Skinner, of Fulton county, to show by what authority he exercises the duties of a member of the committee. The contention is that Skinner's vote decided in favor of Scotland and that in view of the fact he holds a federal appointment he had no right to vote or occupy a seat as a member of the commission. Attorney General Hensel has fixed Thursday for a hearing.

There is more catarrh in this section of the country than all other diseases put together, and untill the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by Cheney & Co Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address,

F. J. CHENEY & CO., Toledo, O.

Sold by Druggists, 75c.

AUDITORS WILL BE OUSTED.

POTTSVILLE, Pa., February 5.—At last fall's election the people of this county elected a county controller and three county auditors. The duties of these officials which conflict the commissioner's office, refused to give the auditors the books for 1892 so that they could be audited. The auditors then secured an attachment on the clerk. A hearing was given the matter before court today. It has now been decided to withdraw the attachment and the commissioners will look for a quo warranto to oust the auditors as they are not needed now that there is a controller.

Insanity showed unmistakable signs of increase last year in New York, according to the statistics of State officers. The first hopeful sign of a decrease in the ratio for 1894 was given in the election of Lemuel Eli Quigg this week.

A DOUBLE TRAGEDY.

A Policeman Beats His Wife to Death and Then Suicides.

PHILADELPHIA, February 5.—Officer Albert Lanahan, of the Twenty-ninth district, committed suicide this morning by shooting in the stable of William Rogers, in the rear of 4306 Lancaster avenue. Officer Smith, of the same district, was notified and went to Lanahan's home, 4539 Merion avenue. He climbed in the window and found Lanahan's wife lying in the hallway dead. Her face and body were mutilated and it is supposed that her husband killed her and then committed suicide.

Mrs. Kate Lanahan was found dead at her home this morning and is supposed to have been killed by her husband, Policeman Albert Lanahan, who was found dead in a stable with his brains blown out who was a hard drinker.

It is supposed that Lanahan went home this morning after coming off duty and finding his wife drunk, and no breakfast ready, a quarrel took place and Lanahan beat the woman so badly that she died. Realizing what he had done and terrified by the awful result of his anger, Lanahan went to the stable, near his home, and killed himself.

A DEAD SHOT.

Right at the seat of difficulty, is accomplished by the sure and steady aim of Dr. Sage's Catarrh Remedy. Don't fool around with a pop-gun, nor a "Flint-lock" when this reliable "Winchester" is within reach! Dr. Sage's treatment of catarrh is far superior to the ordinary, and when directions are reasonably well followed, results in a permanent cure. Don't longer be indifferent to the verified claims of this unfailing remedy. $200 is offered, in good faith, for an incurable case of Catarrh in the Head, by its proprietors, the World's Dispensary Medical association, Buffalo, N.Y. At all druggists.

A HOSPITAL BURNED.

BROOKLYN, N. Y., February 5.—The Memorial hospital, an institution for women and children at 608 Prospect Place, was almost totally destroyed by fire this evening. The fire was discovered on the stone floor shortly after 6 o'clock, which caused great excitement among the inmates, but fortunately no fatalities occurred. When the fire broke out there were twenty-eight patients in the institution, thirteen women and five young children. Some of them were able to leave the hospital without assistance, but twelve of them had to be carried out on cots and mattresses.

Some of the patients were so excited when the flames were discovered that it was with the utmost difficulty that they were prevailed upon by the police and nurses from jumping from the widows.

The fire was caused by a defective flue and caused damage amounting to about $10,000.

MIFFLINBURG MUCH EXCITED.

LEWISBURG, Pa., February 5.—To-day at 12 o'clock the town of Mifflinburg, a few miles west of here, was thrown into wild excitement by an assault made upon Dr. Oliver Pellman by Dr. Nevin Pontius. The former is a prominent dentist of the town and the latter has been practicing medicine in Colorado, but stopped in Mifflinburg before he went west. To-day Pontius entered Pellman's office and attacked the latter with a blackjack, the latter defending himself with a knife. When they were separated both were badly bruised and cut up. The affair was caused by jealousy on the part of Pontius, who found upon his return from the west that Pellman had supplanted him in the affections of his promised wife. All the parties are highly connected. Pontius will be arrested and placed under bail for his appearance at court.

EASY TO CARRY.

Is the point we want to emphasize about HUMPHREYS' SPECIFICS. They can be carried conveiently by the business man in his vest pocket; by the lady in her portemonnaie, and by the school child in pocket or pencil box. For sale everywhere.

FARMERS' ALLIANCE.

TOPEKA, Kan., Feb. 6.—The national convention of the Farmers' Alliance and Industrial Union was called to order in Representative hall at 10 o'clock this morning. There were forty delegates from as many different states present and about 300 members of the Kansas state Alliance. Governor Lewelling delivered the address of welcome on the part of the state. His speech was political in character, and consisted principally in calling attention to the misery and poverty prevailing throughout the land. He was followed by John F. Wiltz, national treasurer of the Alliance, who spoke on behalf of the state Alliance. The responses to the two welcoming addresses were made by Farmer Dean, of New York, and John Duncan, of South Carolina. At to-night's session President Doucks delivered his annual address. All of the sessions except that of this morning will be held in secret.

IN FAVOR OF WOMEN

NORRISTOWN, Pa., Feb. 5.—Judge Weand to-day handed down an opinion by which women are made eligible to admission to the Montgomery county bar. The case came up on the application of Miss Margaret Richardson of Norristown for a rule on the examiners of the bar association to show cause why she should not be allowed to undergo examination for enrollment as a student. At a meeting of the bar association, held January 13, 1894, it was "resolved that we deem it inexpedient to permit women to practice at the bar.

Mr. Jacob B. Gaunt, Medford, Burlington Co., N. J., thus gives his experience: "From experience I can say that Salavtion Oil is a good remedy for rheumatism. I had been almost a cripple for eight or nine months with this malady, but Salvation Oil vanquished it. I can now do as much work as the next person."

MILAN RAISED A ROW.

BELGRADE, Feb. 6.—Ex-King Milan, accompanied King Alexander, his son, to the merchants ball here last evening. He had been in the ball room but a short time when General Gruitch, formerly premier, approached him. Milan at once began a violent tirade against the government and promoting the disloyalty of the Radicals to the throne. He spoke so loudly that his voice penetrated to all parts of the room. The dancing ceased, and the guests listened for Gruitch's reply. The ex premier stood still until Milan began to threaten him, and then turned and left the room without having made any answer to Milan's denunciations.

—According to the *Magnet* editor there are only three "honorable and consistent temperance lawyers" in Bellefonte, namely, Clement Dale, Harry Keller and H. H. Harshberger.

COUNTY EXECUTIVE COMMITTEE.

LYDIA E

PINKHAM'S Vegetable Compound

Is a positive cure for all those painful Ailments of Women.

It will entirely cure the worst forms of Female Complaints, all Ovarian troubles, Inflammation and Ulceration, Falling and Displacements, of the Womb, and consequent Spinal Weakness, and is peculiarly adapted to the *Change of Life.* Every time it will cure

Backache.

It has cured more cases of Leucorrhœa than any remedy the world has ever known. It is almost infallible in such cases. It dissolves and expels Tumors from the Uterus in an early stage of development, and checks any tendency to cancerous humors. That

Bearing-down Feeling

causing pain, weight, and backache, is instantly relieved and permanently cured by its use. Under all circumstances it acts in harmony with the laws that govern the female system, and is as harmless as water. It removes

Irregularity,

Suppressed or Painful Menstruations, Weakness of the Stomach, Indigestion, Bloating, Flooding, Nervous Prostration, Headache, General Debility. Also

Dizziness, Faintness,

Extreme Lassitude, "don't care" and "want to be left alone" feeling, excitability, irritability, nervousness, sleeplessness, flatulency, melancholy, or the "blues," and backache. These are sure indications of Female Weakness, some derangement of the Uterus, or

Womb Troubles.

The whole story, however, is told in an illustrated book entitled "Guide to Health," by Mrs. Pinkham. It contains over 99 pages of most important information, which every woman, married or single, should know about herself. Send 2 two-cent stamps for it. For

Kidney Complaints

and Backache of *either sex* the Vegetable Compound is unequaled.

Lydia E. Pinkham's Liver Pills cure Constipation, Sick Headache, 25c.

All druggists sell the Vegetable Compound, or sent by mail, in form of pills or Lozenges, on receipt of $1.00. *Correspondence freely answered.*

You can address in strictest confidence, LYDIA E. PINKHAM MED. CO., Lynn, Mass.

What is CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhœa and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

DR. G. C. OSGOOD, Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

DR. J. F. KINCHELOE, Conway, Ark.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."

H. A. ARCHER, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

UNITED HOSPITAL AND DISPENSARY, Boston, Mass.

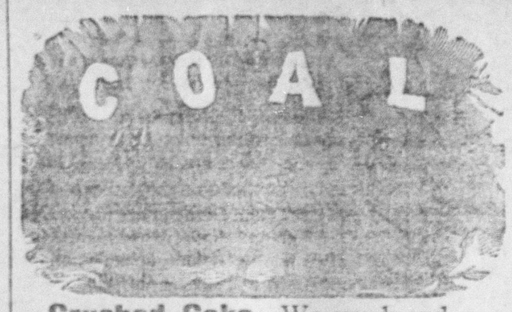
"A HAND SAW IS A GOOD THING, BUT NOT TO SHAVE WITH."

SAPOLIO

IS THE PROPER THING FOR HOUSE-CLEANING.



Crushed Coke, Coal, Stove Wood:

Crushed Coke—We crush and prepare Chestnut, Stove and Egg sizes for use in Cook Stoves and Heaters, as well as a most excellent fuel for heating School Houses and Churches. No smoke, no clinkers. It is the best and cheapest fuel now in use.

Coal—Anthracite—Pea, Chestnut, Stove, Egg and Furnace Coal. Snow Shoe Coal, run of the mines and screened lump; Black Block Nut and Woodland Coal.

Stove Wood—Stove Wood sawed and split to suit buyers. We invite patronage and spare no efforts to furnish Coal for the full value we receive for it. All orders will receive prompt attention.

RIOT RINGLEADERS.

Ten of Those Concerned In the Mansfield Riots Arrested.

MANSFIELD, Pa., January 31.—Ten of the ringleaders of Saturday's riots were captured at Tower Hill this morning. Among them were the noted anarchists, Benzol Benish, Charles Berlireh, Frank Chour and others. A dozen Germans and Slavs escaped to the hills. The village appeared to be a hotbed of anarchists. In every house were found pictures of the Chicago anarchists and inflammatory literature of all kinds. Among the prisoners are three boys who have been identified as those who set fire to the tipple at Bridgeville.

One man said pathetically: "Take my wife and children, too. I have no work and no 'grub,' and if they lose me they will have no one to steal for them.

The greatest find was made by Deputy Sheriff Mowery, who burst open the door of the house of Bensel Benish. Every inch of the walls of the three rooms in the shanty was covered with anarchistic pictures. Benish was bound and handcuffed immediately. As the party was leaving the house they heard one of the children say: "Don't come out yet." The turned back to find out what was meant.

The searching party discovered that there was a cave like room under the house. The key was demanded but was refused. A threat produced it, however, and when the door was unlocked the officers started back in astonishment. The interior was arranged as a meeting hall. Guns, all of which had been recently discharged were arranged about the walls. Here too, the walls profusely decorated with blood curdling pictures. Empty revolver cartridges were thrown about. Charles Berlirch was found hiding beneath a pedestal. He was secured and afterward acknowledged that a meeting had been held in the place on Friday night at which the leaders of the mob made known what they would do.

STUCK IN THE SNOW.

The Johnstown Tribune of January 31 contains the following:

"The regular afternoon train left Ebensburg at 3.30 p. m. yesterday and arrived at Cresson Station at 5.10 this morning, taking almost fourteen hours to run eleven miles, and twelve-fourteenths of the time was consumed in traveling, a mile and a half. On Monday night a perfect gale covered the mountains, causing snow drifts six and eight feet high in Ebensburg, but fortunately did not cause any serious delay on the branch road for the two morning trips. On the afternoon trip yesterday the train left on time with forty-nine passengers twenty-five of them from Johnstown, and several who were delegates from the north of the county to the farmers' alliance convention, but it stuck in the snow a few miles from Kaylor.

"The first stop was caused by the flagman of the work train, about a mile from Ebensburg, where it was foundered in a little cut. Its engine had cut loose from three cars and started through the cut and succeeded in getting to the southern end and back, but it just took three hours to do it. Then the train moved about three hundred yards and found that the work train was blocked in a drift on the level ground, which was eight feet deep. The train moved a few hundred yards and again ran afoul of a drift. This continued until 3 a. m., when Kaylor's station was reached, and no further trouble was met until the arrival at the "Y" at Cresson, where the engine ran out of water and left the train and ran down to the Coalport road for a fresh supply, returning about 5 o'clock.

"The cars were kept very warm, and the lights were remarkably bright, so that the only inconvenience was the delay and the uncertainty as to when the train would get through. Mr. Pitcairn stopped the fast express at Cresson and Johnstown for the delayed passengers who arrived here a quarter after 6 o'clock."

"THEY SAY."

"They say" is the most productive plant in the garden of gossip. The man or woman who is always loaded with information about what "they say" can usually be relied upon to spread a scandal as the winds of the West spread fire in the dry prairie grass. When a lot of old hens, either male or female, get together and commence asking about what "they say," it generally results in originating a scandal whether any real cause for it exist or not. It is a kind of smokeless powder which these human bush whackers use in their attacks upon society. It enables them to fire their pellets of malice and mischief without being seen. Too cowardly to come out openly and make their charges, and having no real authority for the damaging assertions or insinuations, they skulk behind the expression quoted and significantly relate all about what "they say," throwing in many knowing winks and nods, all the time expressing sorrow, surprise and regret in true hypocritical style. It is a good plan to never give "they say" as an authority for a statement, particularly if it is of a nature to damage the good name of any person.

SLOWLY ROASTED TO DEATH.

WHEELING, Jan. 31.—George Turner an engineer at the Wheeling Steel works, met a horrible dreath on Monday night. He was hauling a red-hot steel mold, weighing 6,000 pounds, on a small truck, careened and allowed the mold to fall over the cab of the locomotive, where he wes sitting. He fell to the platform and the big mold fell across his abdomen and held him there until he was literally roasted to death, the hot metal burning his body almost in two. He was conscious fully ten minutes while lying under the burning mass and was able to give direction to those about him as the best method for getting the mold off him, but he was dead when removed.

OUR FLAG IN BRAZIL.

Admiral Benham's decisive action in the harbor of Rio de Janeiro is a fresh declaration of the established American policy, that while this government will not interfere with the internal conflicts of neighboring nations, it will protect to the utmost the legitimate rights of its own citizens everywhere.

There is no doubt that the administration, in its prompt disavowal of Mr. Stevens' protectorate in Hawaii, and its desire to restore the status quo, had in view not merely an act of abstract right, but a broad principle of international policy upon which it was necessary that the United States should keep their record clear. It is an open secret that the insurrection in Brazil received early encouragement from Europe, and there were reasons to believe that the United States might be called upon at any time to assert and enforce the doctrine of non-intervention there.

The European powers understood the position of the administration toward Hawaii more clearly than it was generally understood, or pretended to be understood, at home. They interpreted it so exactly, indeed, that from that time all indications of foreign intervention in Brazil absolutely ceased, and both the diplomatic and the naval representatives placed themselves virtually under the direction of the representatives of the United States. The diplomatic corps at Rio has consulted constantly with Mr. Thompson, and the naval officers have in every case waited for the initiative of the American admiral.

This friendly disposition was intensified by the recall of Admiral Stanton after his unauthorized exchange of civilities with the insurgent fleet, an act that was intended not to discredit Stanton, but to emphasize the attitude of neutrality which this government intended to enforce. The result has been to make the American admiral now at Rio actually master of the situation, and he has been looked to by common consent to bring the disturbance to an end.

Whether the insurgent admiral has recklessly or purposely provoked him into a display of force, it has changed the situation only by simplifying it, and hastening the conclusion. The authority of the United States will not be employed to pull down or set up any particular government or form of government in Brazil, but only to secure the Brazilian people freedom to settle their own affairs without the possibility of foreign intervention. This is the true American policy, steadfastly maintained by every true American administration.

THE MEANEST THING OF ALL.

Many mean things have been done in Kansas, and one of the meanest was the tearing down of the flags raised in Hiawatha by the women of the Equal Suffrage Association on the occasion of a celebration there. The flags were of the usual kind except that the stars in each numbered only two, to represent Wyoming and Colorado, and one rising at the edge, to represent Kansas, which is expected to be the next State to grant full suffrage to women. They were pulled down by a few Grand Army men, who said they were an insult to the flag of the Union. Behind all such displays of excessive loyalty, look for an interested motive The man who led in this cowardly business was not long since required to pay a fine of $300 for violation of the liquor law of the State. The woman are the most zealous defenders of prohibition, and especially those seeking full suffrage. The motive of this ultra loyalty was not far to seek. That the Grand Army men there generally denounce this ungallant thing is a matter of course. Nothing could be more absurd than to imagine these women wanting in patriotism. The men who tore down their flags should be given a chance to serve the country in the work house.

IT WAS LOADED.

DECATUR, Jan. 31.—While playing cards with Miss Maggie Trulock, and other friends last night, David Lambert laid a revolver on the table, after, as he supposed, having taken out the cartridges. Shortly afterwards Miss Trulock playfully pointed the revolver at Lambert and pulled the trigger. There was a flash and Lambert dropped to the floor mortally wounded. It is reported that she and Lambert were engaged to be married.. Miss Trulock is nearly crazy with grief.

A HEAVY MORTGAGE.

A mortgage for $600,000 for the Central railroad company of Pennsylvania to the Fidelity insurance trust and safe deposit company of Philadelphia, was entered in the recorder's office, this place, a few days ago. The mortgage covers the stock of the company and is given to secure the bonds issued.

ODD FELLOWS DAY.

The P. O. A. A. of the I. O. O. F. will hold its tenth annual meeting in Lewisburg, April 26th, 1894, being the seventy-fifth anniversary of the introduction of the I. O. O. F. into the United States. The Odd Fellows of Lewisburg are determined to make this the grandest meeting the association has ever had.

FATAL SLEIGHING ACCIDENT.

High School Students Figure in a Serious Affair.

FALL RIVER, Mass., January 31.—A sleigh containing twenty-eight members of the B. M. C. Durfee high school was crossing the Brownell street crossing of the New York, New Haven and Hartford railroad this evening when the Boston express hove in sight. The driver succeeded in getting within two feet of being out of danger. Everett B. Durfee, teacher in the school and in charge of the party, was sitting on a camp stool at the end, and on either side of him were Brooks Borden, son of Colonel Spencer Borden, and Ray Thornton, son of Charles D. Thornton, while Orson Swift, the 17 year old son of M. B. Swift, was sitting in the lap of Henry Hawkins. When the party saw the rushing train the members became terror stricken. Borden and Thornton jumped off the end only to be struck by the locomotive. Swift was preparing to jump when he too was struck. Borden was hurled forty feet, his skull and body being crushed in, and he was instantly killed. Ray Thornton was dragged along in the wheels for 100 yards, his head and right hand being severed from his body. Swift was hurled twenty feet and was unconscious when picked up. He was taken home but died shortly after he arrived there. Mr. Durfee jumped with Clark Chase, Jr., when they saw the train and they escaped with slight bruises, the train passing between them and the sleigh.

Immediately after the accident the terror stricken pupils jumped from their conveyance and the young ladies became frantic. The only injury done to the sleigh was the smashing out of the end about a foot square. The horses were going at a moderate gait and did not attempt to run.

A DEPLORABLE CONDITION.

Information comes to us from Karthaus township, of a very sad case of poverty and distress. Bill Donnachy lives in a hovel at Cataract with a wife and four children. He has been out of work, and his family are without food or clothing. Recently scarlet fever entered the hut, and the neighbors rendered all the assistance they could, but there were many things they could not do. On Thursday last one of the children died, and the people thought a prompt burial necessary to protect the community as much as possible. The father would not go to a Justice, four miles off, to place his family on the township, and when the neighbors interviewed the Overseers they declined to give relief without the usual routine before a Justice of the Peace. The little dead body was still lying in the shanty on Saturday evening—no undertaker to provide a coffin, no one to supply the things necessary for a decent burial, while the attention of the neighbors were directed toward the other children suffering from the fatal disease. On Friday neighbors gathered at the house and dressed the little dead body and laid it on a bench to await the coming of a coffin, which the Overseers had not supplied on Saturday, although the child had been dead two days.

There are cases of extreme sadness among poorer class of people, but the thought of a home with little innocent children naked, freezing and dying from disease and hunger in this land of plenty makes one shudder. We readily see the importance of better laws and better organization for the protection of such unfortunate beings.

WILLIAM SENCER'S DEATH.

The following particulars of the sad death of a Centre countian we take from the Lock Haven *Democrat*:

William A. Sencer, formerly of Mill Hall, while working on John Bowden's saw mill on Panther run, Centre county, on Monday had his clothing caught on a line shaft. His body was whirled almost around the shaft when it was stopped. The shaft, however, still in motion, kept winding his clothing around until his body was badly squeezed. He died about three hours after the accident from internal injuries. He was 23 years, 6 months and 10 days old and leaves a wife but no children. The remains were brought to Mill Hall Wednesday morning for burial. Services were conducted in the M. E. church by Rev. Wilhelm and interment was made in Brown's cemetery in Bald Eagle township. Seven of the fellow workmen came along to attend the funeral. The pall bearers were George Lewis, Christ Wildoner, Edward Thomas, Samuel, Wilbur, and Harry Holt.

FIVE MINERS BURNED.

FAYETTE CITY, Pa., January 21.—An explosion of fire damp occurred in the mines of the Fayette Coal company at 5.30 o'clock this morning. Five miners were badly burned about the head, face and hands. They are: Thomas Taylor, Samuel White, C. C. Hamilton, Charles Matthews, and Lewis Dewait. While their injuries are serious they are not considered fatal. The explosion was caused by an open light coming in contact with a small body of gas which had accumulated during the night. The force of the explosion was not strong enough to do much damage to the mines.

COURT NEWS.

The case of Conrad Immel vs. Beecher & Sober was concluded on Wednesday when the jury brought in a verdict in favor of the plaintiff for $127.00.

Wednesday noon the liquor license of Mrs. Mary Nolan, at Snow Shoe, was transferred to Mr. Michael McCabe, who will continue the Mountain House in the future.

HILL'S

REMEMBER WE GUARANTEE A CURE and invite the most careful investigation as to our responsibility and the merits of our Tablets.

READ OUR TESTIMONIALS

Double Chloride of Gold Tablets

Will completely destroy the desire for TOBACCO in from 3 to 5 days. Perfectly harmless; cause no sickness, and may be given in a cup of tea or coffee without the knowledge of the patient, who will voluntarily stop smoking or chewing in a few days.

DRUNKENNESS and MORPHINE HABIT can be cured at home, and without any effort on the part of the patient, by the use of our SPECIAL FORMULA GOLD CURE TABLETS. During treatment patients are allowed the free use of Liquor or Morphine until such time as they shall voluntarily give them up.

We send particulars and pamphlet of testimonials free, and shall be glad to place sufferers from any of these habits in communication with persons who have been cured by the use of our TABLETS.

HILL'S TABLETS are for sale by all FIRST-CLASS druggists at $1.00 per package.

If your druggist does not keep them, enclose us $1.00 and we will send you, by return mail, a package of our Tablets.

Write your name and address plainly, and state whether Tablets are for Tobacco, Morphine or Liquor Habit.

DO NOT BE DECEIVED into purchasing any of the various nostrums that are being offered for sale. Ask for HILL'S TABLETS and take no other.

Manufactured only by

TOBACCO HABIT EASILY CURED.

A FEW Testimonials from persons who have been cured by the use of Hill's Tablets.

THE OHIO CHEMICAL CO.:
DEAR SIR:—I have been using your cure for tobacco habit, and found it would do what you claim for it. I used ten cents worth of the strongest chewing tobacco a day, and from one to five cigars; or I would smoke from ten to forty pipes of tobacco. Have chewed and smoked for twenty-five years, and two packages of your Tablets cured me so I have no desire for it.
B. M. JAYLORD, Leslie, Mich.

DODDS FERRY, N. Y.

THE OHIO CHEMICAL CO.:—GENTLEMEN:—Some time ago I sent for $1.00 worth of your Tablets for Tobacco Habit. I received them all right and, although I was both a heavy smoker and chewer, they did the work in less than three days. I am cured.
Truly yours, MATHEW JOHNSON, P. O. Box 45.

PITTSBURGH, PA.

THE OHIO CHEMICAL CO.:—GENTLEMEN:—It gives me pleasure to speak a word of praise for your Tablets. My son was strongly addicted to the use of liquor, and through a friend, I was led to try your Tablets. He was a heavy and constant drinker, but after using your Tablets but three days he quit drinking, and will not touch liquor of any kind. I have waited four months before writing you, in order to know the cure was permanent. Yours truly,
MRS. HELEN MORRISON.

CINCINNATI, OHIO.

THE OHIO CHEMICAL CO:—GENTLEMEN:—Your Tablets have performed a miracle in my case. I have used morphine, hypodermically, for seven years, and have been cured by the use of two packages of your Tablets, and without any effort on my part. W. L. LOVELACE.

Cures Constipation

—A good way to kill time—sleigh it.

—The Coronet Hook and Ladder company has disbanded.

—The shortest month in the year, February, is now with us.

—St. Vallentine's Day comes on Wednesday, February 14th.

—Howorth's Hibernica company went from Bellefonte to Osceola.

—It is said that there are a number of cases of chicken pox in Bellefonte.

—We may yet have a spell of winter, and ice enough to fill all the ice houses.

—Marklesburg, Huntingdon county, would like to have the Lamokin electric street car works.

—Clean the ice and snow off your pavements as soon as possible. This will only be doing justice to walking humanity.

—During the past six months there have been 1,088 births in Clearfield county and 369 deaths. A pretty rapid increase that.

—The *Centre Reporter* figures it up that all together we have had eighteen inches of snow this winter. Now, who would have thought it?

—A social euchre party was held at the home of Mr. Michael Shields, on Logan street Thursday night. The evening was greatly enjoyed by those present.

—J. C. Meyer, attorney, of Bellefonte, has been drawn as a petit juror to serve in the March term of the United States circuit and district courts to be held at Scranton.

—Mr. Will Garman is an applicant for the position of mail agent on the Central Railroad of Pennsylvania. So far as we have yet heard he has the field all to himself.

—The members of the Reformed church, of Centre Hall, have laid by a fund of seven hundred dollars which, in the future, will be applied towards the erection of a new church.

—There seems to be a vast difference in opinion, as expressed by the Centre Hall *Reporter* and the *Democratic Watchman*, as to the merits of the county commissioner's statement of the receipts, expenditures, etc., of Centre county, issued this week.

—Mr. William Meyer, of Rebersburg, has been engaged to take charge of Bartholomew's roller flouring mill at Centre Hall, and will shortly move to that place to enter on the performance of his duties. Mr. Meyer is one of the best millers in Centre county.

—Some little excitement was created Thursday evening by a premature story in effect that the President had sent the name of Bellefonte's next postmaster to the Senate for confirmation. An investigation, however, failed to reveal any foundation to the story.

—Judge Gordon, of Clearfield, has disposed of all the liquor license with the exception of the restaurant licenses of Jas. Forcey, of Morris township, and this one will be held over until next Monday. The list comprised 190 applicants and of this number 113 were granted.

—Howorth's Hibernica company gave a most delightful performance on Wednesday evening to one of the largest audiences that has been in Garman's opera house this season. Mr. Howorth has a good show, he lets the people know it, and the people flock by hundreds to see him.

—There is a young lady in the North ward who is regretting the mysterious disappearance of one of her skirts. It is not so much the loss she cares for as it is to know whether the garment was lost or stolen and, if the latter, whether by woman or man. If the former, she had better keep herself scarce; if the latter, he will be freely forgiven on the simple acknowledgement of the crime and allowed to keep the skirt.

A NARROW ESCAPE!

How it Happened.

The following remarkable event in a lady's e will interest the reader: "For a long time I d a terrible pain at my heart, which flutved almost incessantly. I had no appetite d could not sleep. I would be compelled sit up in bed and belch gas from my stomh until I thought every minute would be last. There was a feeling of oppression out my heart, and I was afraid to draw a l breath. I couldn't sweep a room without sitting down and resting; but, thank , by the help of New Heart Cure all that ast and I feel like another woman. Be- using the New Heart Cure I had taken erent so-called remedies and been treated doctors without any benefit until I was h discouraged and disgusted. My husband ght me a bottle of Dr. Miles' New Heart e, and am happy to say I never regretted as I now have a splendid appetite and p well. I weighed 125 pounds when I be- taking the remedy, and now I weigh 130½. effect in my case has been truly marvel- It far surpasses any other medicine I e ever taken or any benefit I ever re- ed from physicians."—Mrs. Harry Starr, tsville, Pa., October 12, 1892.

r. Miles' New Heart Cure is sold on a post- guarantee by all druggists, or by the Dr. s Medical Co., Elkhart, Ind., on receipt of e, $1 per bottle, six bottles $5, express pre- . This great discovery by an eminent cialist in heart disease, contains neither tes nor dangerous drugs.

A SHOCKING ACCIDENT.

Isaac Yarnell Terribly Injured and Judge Gordon Narrowly Escaped Death.

One of the most shocking accidents that has happened in Centre county for years occurred Friday morning at Hecla, on the Central Railroad of Pennsylvania, in which Isaac Yarnell, one of the best known farmers in Walker township, was so badly injured that he died this afternoon at 2.30 o'clock, and Judge Cyrus Gordon, of Clearfield, made a micraculous escape. From Mr. Frank B. Stover, of this place, who was near by when the accident happened, we gleaned the following particulars.

Mr. Yarnell, who lives about a mile from Hecla flag station, desired to come to Bellefonte on the train passing there at 9.34 a. m., and which arrives in this place at 9.55. Judge Gordon who had been down to his farm and mill, was also coming up this morning. On the road to the Station he and Mr. Yarnell met and walked along together. At the station a number of cars were standing on the siding and these had been uncoupled and drawn apart perhaps ten feet to allow passengers to cross the track to the small station building which stood on the opposite side of the main line.

When Judge Gordon and Mr. Yarnell were yet some distance away they saw the train coming and, knowing that to have it stop they would have to get there in time to flag it, they both started on a run, Gordon in the lead. In some way or other they failed to notice just how near the train was, and once behind the freight cars standing on the siding it was impossible to see the on rushing train, and just as impossible for the trainmen to see them. Judge Gordon leading they plunged through between the freight cars and seeing his danger Gordon made a mighty leap and just succeeded in clearing the track as the train rushed by, brushing his overcoat in passing. Mr. Yarnell, being a step or so behind, was fairly in the middle of the track when he was struck by the engine, which was running at about thirty miles an hour, and hurled a distance of sixty feet before ever he struck the ground, after which he was tumbled a further distance of thirty feet by actual measurement.

Strange as it may seem the man, though unconscious, was not dead, although it seemed as if every bone in his body must be broken. His right leg was broken in two places and his head was terribly cut, while his face and body was a mass of bruises. The unfortunate man was picked up and tenderly conveyed to his home where he lingered until 2.30 o'clock this afternoon when he breathed his last, without having at any time regained consciousness.

Mr. Yarnell was aged about 57 years. He leaves to mourn his shocking death a loving wife and seven children. John I., Sallie, Flora, Ambrose, Sadie, Myrtle and Delmont, and in addition a large number of sorrowing frinds.

Of course, no blame can be attached to the railroad company, as they were in no way whatever responsible. However, they feel very keenly the fact that a human being has met death on their road, even were it by his own thoughtlessness.

A RARE TREAT.

A large crowd of the music loving people of Bellefonte gathered in the hall over the Centre County Bank on Thursday evening to hear the initial recital of Meyer's orchestra and the Bellefonte Band. It was just about 8.15 o'clock when the band struck up a Quickstep which was rendered most delightfully and in a manner equal to a band with years of training and practice, while the Bellefonte band has been practicing only a few weeks. The entire program rendered during the evening, both by the band and orchestra, was most entrancing and captivating to the entire audience present. Of course, the reputation of Meyer's orchestra is so well known in Bellefonte that it is needless to comment on it, only to say that the music rendered by it was of the usual high and difficult standard. During the evening General Beaver, who was present, made a brief address on music, telling of its advantages, benefits, etc., and speaking a good word for Bellefonte's musical organizations, the orchestra and band. The recital, with a brief intermission, lasted a full hour and a half. The leaders of the two organizations, Meyer's orchestra and the Bellefonte band are W. T. Meyer of the former, and Mr. Culveyhouse of the latter, and they are deserving of great commendation for the pluck and perseverance shown in the organization and advancement of these two musical bodies. May success continue with them.

OF INTEREST TO BUTCHERS.

Auditor General Gregg says that in accordance with recent decisions of the supreme court, dealers in live stock and butchers who sell meat of animals they have slaughtered, are exempt from payment of mercantile license, but butchers who purchase cattle killed and dressed and sell the meat are liable to the payment of mercantile tax.

THE SOAP SWINDLER.

A soap swindler is operating in other counties and may visit this section. He offers six pieces of common soap fantastically packed for fifty cents, each purchaser to be presented with a crayon copy of a portrait of any member of the family. The portraits, however, fail to materialize and the purchased of the soap is out about 45 cents.

—Persons who believe in luck and signs will doubtless agree that it is unlucky to be struck by lightning on Monday, or to take hold of a circular saw in motion on Tuesday, or tumble down stairs with a coal scuttle on Wednesday, or to be hit by a car on Thursday, or fall overboard on Friday, or marry on Saturday a girl who swings ten pound dumb-bells, or be one of thirteen at dinner on Sunday, when there is food for only ten.

UP TO DATE.

Following is a brief description of Lock Haven's First Ward school building, which was planned by architect Robert Cole, and constructed by contractor D. K. Tate, both of Bellefonte:

The new First ward school building will be open to the inspection of the public Saturday. All our citizens are requested to visit it. On Monday the schools of the First ward, which have been divided among the other school buildings, will meet in the new structure. The building is a two story brick structure, resting on a foundation of stone. A tower fronts the Church street entrance, in the top of which is placed the bell. The hallway divides the building, throwing four rooms on each end, two up and two down stairs. Each of these rooms have 24x36 feet floor space, with the ceiling on the lower story thirteen feet high and on the upper story fourteen feet high. The rooms are lighted by seven large windows, of two sashes each. Slates run the length of one wall in several rooms, while in two apartments the slates are fastened in two walls the entire length. The end rooms are separated by cloak closets and entrance way. All the rooms are wainscoted, Georgia pine being used throughout. The basement is divided into several apartments, which apartments will be used for girls and boys play rooms, fuel rooms, janitor's room and work room. The girls' and boys' rooms are separated by a hallway. The furnaces of the Smead, Wills & Co. occupy a prominent position in the basement. Their dry closet system will be used.

Operations on the new building were begun in June last. It is a building of which this city can be proud, as its rooms are large, well-lighted, comfortably heated and healthfully ventilated, and will be furnished with furniture and supplies of the latest improved pattern.

BABY HASTINGS.

An exchange says: Sara Fullerton Hastings, a few weeks old daughter of Gen. D. H. Hastings, of Bellefonte, is described as a beautiful, amiable and popular infant—the first baby that for 14 years has taken up an abode in that well known gentleman's home. She is the recipient of much attention from the many statesmen, politicians and others who call to see her distinguished father, and her behavior is all that could be desired.

She has received many fine presents. Among them is an elegant diamond ring, two sets of gold buttons, a pair of roughened gold catch-up pins, a silver teaspoon with a gold bowl, a silver pap spoon, two solid silver drinking cups, a pink celluloid basket, containing brush, comb powder and puff box. She has also received four afghans, one of pink and Saxony, another crocheted in beautiful designs and is of cream white eiderdown wool, a third is of pale pink eiderdown wool and the fourth of cream white eiderdown flannel embroidered with blue floss. Her dresses and shoes were many and beautiful. A Philadelphia woman sent a downy pillow with a handsome slip adorned with forget-me-nots Little Sara is named after the General's mother, and is the joy of the whole household.

A BEAR HUNTER.

While out hunting, last Saturday, Mr. Alfred Lucas, of Moshannon, was attracted to the vicinity of the South fork by the barking of his dogs. He thought they had run up a porcupine, which he knew to be in that region, so hurried up to get them away from it before they would get so full of quills as to be unfit for further hunting. Accordingly he ran through the brush to the place where they were barking and found them making a great fuss near a fallen tree. Thinking, of course, that they had the porcupine under the log he ran up to pull them off and just when he reached them he found that instead of a porcupine a huge she bear was under the log. He was then too close to get his gun up so he retreated a few steps, where he could take aim, and fired. His gun was only loaded with No. 8 shot, but they did the work. Bruin's neck was broken.

After he became positive that she was dead he stooped down to drag the carcass out when, imagine his surprise, three tiny cubs ran out. They were so small that they did not have their eyes open. They could not have been more than three days old and Mr. Lucas caught them and carried them home, where he is now raising them on a bottle.

BUT THEY ALL MOVE.

House renters are looking about for a suitable place to live the coming year. Some people, never satisfied, move every year, and if they would stop to think the amount of damage it caused furniture surely they would not move so often. Most of the people move because their landlord will not do repairing and they move into another person's property with the promise that all necessary repairs will be promptly made. But after they have moved and such repairs are requested to be made the tenant very soon discovers that his new new landlord is no quicker about making repairs than was his former one. This fact the "annual movers" all know yet they are still in search of a landlord who will meet their requirements.

ADDITIONAL FACTS.

Some Singular Incidents in Connection with Mr. Yarnell's Death.

In connection with the death of Mr. Yarnell on Friday the officials of the Central Railroad company have made a minute and thorough investigation and the facts as published in the DAILY NEWS are substantially correct. However, there are some singular features in connection therewith which are as follows:

Judge Gordon says that on leaving the mill, they (Mr. Yarnell and himself) noticed that the train was nearer than they thought and that he walked fast to get there in time to give the signal to stop. He went through between two freight cars, across the main track, never once looking back to see where Mr. Yarnell was. Judge Gordon thought the train was about fifty feet away when he crossed the track, although he admits that he had only time to throw up his hand and signal to stop when the train rushed by. He at once followed after about two hundred feet to where the train was stopped and got on the rear platform. He did not see Yarnell nor know the accident had happened. On going in the car, however, he remarked to Conductor Hall that he thought there was another man coming. After waiting a reasonable length of time, and seeing no one, the conductor gave the signal to go ahead and the train came on to Bellefonte without a man on board knowing of the shocking accident that had happened. It was not until sometime in the afternoon that Judge Gordon knew of Mr. Yarnell's fate, and it was not until he saw it in the DAILY NEWS that he knew the full particulars and realized what a narrow escape he himself had made.

Charles Gilmour, the engineer, says that when he saw Gordon step over the track and give the signal to stop he was almost opposite the station; that he did not see another man around and knew nothing of the accident until told about it in the afternoon. Of course, owing to the freight cars on the siding and Mr. Gilmour being on the opposite side of the engine from which Mr. Yarnell was approaching, it is plainly to understand why he could not see him.

Even Mr. Stover, who saw Judge Gordon come through, did not see Mr. Yarnell on the track, although he did see something flying through space, but he thought at first it was a bundle of some kind, that had been thrown by some one. Several other men were there loading ice on the cars on the siding but they did not see the accident. But they did notice how soon the train came along after the men went between the freight cars and as quick as the train had passed went through to look and the discovery of Mr. Yarnell's fate was then made. So that from all the facts obtainable it is evident that Mr. Yarnell, seeing Judge Gordon getting across safely, thought he had plenty of time, and when too late to turn back found out his mistake, and was struck before he could get across.

No blame can attach to anyone; it was simply one of those accidents in which an unseen hand seems to rule. Mr. Yarnell, although nearly 58 years old, had never taken a ride on a railroad train, but had intended taking his first on Friday in a trip to Bellefonte.

REMOVED TO BELLEFONTE.

The family of Mr. Geo. W. Rumberger took their departure yesterday for their new home in Bellefonte, due to the election of Mr. R. to the office of Register, excepting two of the sons, Harry and George, both of whom are holding good positions in our city, the former with Denlinger Bros., oil dealers, and the latter as baggage agent for the T. & C. R. R. In the removal of Mr. R. and a portion of his family Philipsburg suffers a loss that will be keenly felt, but which we trust will only be temporary. Miss Laura will be specially missed in the M. E. church, in which she was an earnest worker—a member of the choir and holding an office in the Epworth League to which she gave her best attention.—Philipsburg *Journal*.

—Our people are taking advantage of the present snow to enjoy all the sleigh rides possible. Thursday night there were two parties out; Friday evening there were two more, and this evening there are several booked to go out in various directions. We trust they will enjoy themselves to an unlimited extent.

LESSENS PAIN—INSURES SAFETY to LIFE of MOTHER and CHILD.

My wife, after having used Mother's Friend, passed through the ordeal with little pain, was stronger in one hour than in a week after the birth of her former child. J. J. McGOLDRICK,
Beans Sta., Tenn.

Mother's Friend robbed pain of its terror and shortened labor. I have the healthiest child I ever saw.

GRATEFUL COMFORTING.
EPPS'S COCOA
BREAKFAST—SUPPER.
"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected Cocoa, Mr. Epps provided for our breakfast and supper a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—*Civil Service Gazette*. Made simply with boiling water or milk. Sold only in half-pound tins by Grocers labelled thus:

CONNECTIONS.

At Mill Hall with Beech Creek Railroad, at Jersey Shore with Fall Brook Railway for points in New York State and the West. At Clearfield for all points on the Buffalo Rochester & Pittsburg Railway. At Williamsport with Philadelphia & Reading Railroad for points East and South.

TICKETS.

Through tickets to points on above mentioned railroads may be purchased at all stations.

Round trip tickets to Philadelphia good for thirty days, and round trip tickets to New York good for sixteen days are on sale at all Central Railroad of Pa., offices. Local round trip tickets can also be had at all ticket offices.

Thousand mile tickets, good on Central Railroad of Penna. Beech Creek Railroad, Buffalo, Rochester and Pittsburg and Philadelphia and Reading Railroad (main line division) may be purchased at ticket offices at $20 each. These tickets when issued to a business firm can be used by its members and employees, if issued to an individual they will be accepted for passage of any member or members of the family. This arrangement practically makes a rate of two cents per mile over all middle and eastern Pennsylvania.

Baggage can be checked through from all regular stations. J. W. GEPHART,
Bellefonte, Pa. General Superintendent.

BELLEFONTE CENTRAL RAILROAD.—On and after Monday, April 4th, 1892, trains will run as follows, leaving the Pennsylvania Railroad station.

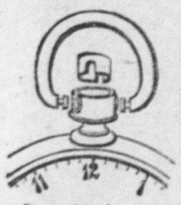
CANVASSERS WANTED.

Non-pull-out

is an arbitrary word used to designate the only bow (ring) which cannot be pulled off the watch.



Here's the idea

The bow has a groove on each end. A collar runs down inside the pendant (stem) and fits into the grooves, firmly locking the bow to the pendant, so that it cannot be pulled or twisted off.

It positively prevents the loss of the watch by theft, and avoids injury to it from dropping.

IT CAN ONLY BE HAD with Jas. Boss Filled or other watch cases bearing this trade mark—

All watch dealers sell them without extra cost.
A watch case opener will be sent free to any one by the manufacturers.

Keystone Watch Case Co.,
PHILADELPHIA.

THE NEW YORK
WEEKLY HERALD.
FOR 1894
Will Be Without Question America's
LEADING FAMILY PAPER.

The reputation that the WEEKLY HERALD has enjoy for many years of being best home newspaper in the land will be materially added to during the year of 1894. No pains or expense will be spared to make it in every department the most reliable, interesting and instructive of all weekly newspaper publications.

It will be improved in many ways.

A number of new features and departments will be added. The latest development in all fields of contemporaneous human interest will be ably discussed from week to week by accomplished writers.

The News Of The World

will be given in a concise but complete form. Every important or interesting event, either at home or abroad, will be duly described in the columns of the WEEKLY HERALD.

In politics the HERALD is absolutely independent and sound. It tells the rights and wrongs of all sides without fear.

Farmers and stock raisers cannot afford to be without the WEEKLY HERALD during the coming year. It will contain a regular department each week devoted exclusively to subjects of timely interest to them and giving many valuable suggestions and new ideas.

The women and children of the land will find in the WEEKLY HERALD a welcome visitor. The household and children's pages will be both instructive and entertaining. They will abound in hints and receipts which women so much value.

A brilliant array of novels and short stories by the best writers in America and England has been secured, so that fiction will be one of the most attractive features in the WEEKLY HERALD during 1894.

In fact, the WEEKLY HERALD will be a magazine of highest order, combined with a complete newspaper.

Now Is The Time To Subscribe.

1894.
Harper's Magazine.
ILLUSTRATED.

HARPER'S MAGAZINE for 1894 will maintain the character that has made it the favorite illustrated periodical for the home. Among the results of enterprises undertaken by the publishers, there will appear during the year superbly illustrated papers on India by EDWIN LORD WEEKS, on the Japanese Seasons by ALFRED PARSONS, on Germany by POULTNEY BIGELOW, on Paris by RICHARD DAVIS, and on Mexico by FREDERICK REMINGTON.

Among the other notable features of the year will be novels by GEORGE DU MAURIER and CHARLES DUDLEY WARNER, the personal reminiscence of W. D. HOWELLS, and eight short stories of Western frontier life by OWEN WISTER. Short stories will also be contributed by BRANDER MATTHEWS, RICHARD HARDING DAVIS, MARY E. WILKINS, RUTH MCENERY, Miss LAURENCE ALMA TADEMA, GEORGE A. QUESNAY DE BEAUREPAIRE, THOMAS NELSON PAGE, and others. Articles on topics of current interest will be contributed by distinguished specialists.

HARPER'S PERIODICALS.

Corespondents should write upon but one side of the paper, and avoid the use of pale or fancy inks.

EDWARD T. TUTEN.

Local Department.

—The atmosphere in Garman's opera house Monday evening was entirely too chilly for comfort.

—Samuel Decker, aged 22, died at his home near Snydertown Sunday morning at 3 o'clock, of consumption. His funeral will occur to-morrow.

—Bartholomew's horse show will be the next attraction in Garman's opera house. It will be here three days, commencing Monday, February 12th.

—During the past week not a single marriage license was granted by the register of Centre county. Are times that dull that even the young cannot marry?

—A young man with fewer brains than the average mortal, tried to create a fuss in the United Brethren church Monday night by talking out loud during prayer, but he only succeeded in getting put out of the church.

—Friday evening Miss Mabel Cowdrick entertained a number of her young friends with a sleighing party, after which they drove to the home of Mr. Cowdrick on Linn street and were served with elegant refreshments.

—Mr. and Mrs. John Walker and Mr. Robert McCalmont and his sister, will in the near future occupy the Alexander residence near McCalmont & Co's lime kilns. This is a nice house and will be a lovely home in summer time.

—Pat Meany, "Our own Pat," has signed with Harrisburg to pitch for them this season. In a Harrisburg dispatch he is described as being "over six feet tall, weighing 175 pounds, and a speedy left-hander." That's him, to a T.

—About one hundred and twenty-five students and others from State College came down on a special over the Bellefonte Central Monday evening to attend the entertainment of the Fisk Jubilee Singers in Garman's opera house.

—The DAILY NEWS is under obligations to Master Albert Jackson, one of the brightest scholars in that school, for the most excellent High School reports published weekly. Albert will make a journalist some day if he keeps up his work.

—Monday night was probably the coldest night we have had this winter, but by morning it had moderated and to day is almost mild as a spring day. It is probable we will now have a few days of warm weather, which will take what little sleighing we now have.

—Says a special from Altoona: The society ladies of this place are planning to give a Kirmess festival February 22, and there is strong opposition to it among the church people. Twenty-seven ministers met here to-day and denounced the Kirmess most emphatically.

—Architect Robert Cole is at work on plans and specifications for a new armory for Company B. Mr. Cole has also prepared plans for the reb uilding of the Conrad Block, which, should they prove acceptable, will make that one of the finest business blocks in Bellefonte.

—On Saturday William Hanna, who lives below the nail works, was arrested for being implicated in the recent robbery of meat and clothing. His premises were searched and some of the stuff stolen was found secreted under the house. Hanna was put in jail. He admits that two others were with him but refuses to give their names.

—The Centre Hall *Reporter* says: "Rev. Zehner, a minister in the Evangelical church, intends making Centre Hall his future home; he has purchased a lot and will erect a dwelling on it." If the gentleman referred to is the Rev. Zehner, of Bellefonte, Centre Hall is to be congratulated on the prospect of getting so good a citizen.

—The "Young Republican Club," of Philadelphia has sent a circular letter to the chairman of the Republican committees throughout Pennsylvania offering to award a handsome silk banner of the finest quality and best workmanship to the county committee of the county showing the largest percentage of votes for Galusha A. Grow, for Congressman-at-large. Wonder how near Centre county will come to getting it.

—A steam pipe burst in the front part of the Presbyterian church some time during last night and the church soon filled with water and steam. It was at first feared that considerable damage had been done, but this is not the case. The only damage is to the wall near where the leak occurred. Mr. Meyer was there this morning and tried the pipe organ which it was feared might be ruined, but he pronounces it not hurt in the least.

—On Tuesday evening quite a large number of Bellefonte and nearby young people enjoyed themselves immensely. A sled load numbering twenty-six went to Zion, where a most delightful social time was had at the hospitable residence of Mr. and Mrs. Perry Gentzel, until about midnight when they returned home. Another sled load of twenty-seven young people went to George M. Reesers, near Fillmore, where just as delightful a time was had.

WHAT COUNCIL DID.

Not Much Business but a Large Number of Bills.

It was just 8.05 o'clock Monday evening when President Potter called borough council to order, members Potter, Gerberich, Hillibish, Miller, Garman and Bush being present. Clerk Isaac Mitchell read the minutes of the previous session which were approved as read.

There were no verbal communications, nor any written ones. The Water, Street, Fire and Police and Nuisance committees had no special reports to make. For the Coronet Hook and Ladder Company George T. Bush reported that, owing to lack of interest, etc., said company has concluded to disband, and would turn the ladder truck and accoutrements over to the council. The Finance committee reported balance due treasurer February 5, 1894, as $3,936.76.

Member Garman offered the following:

Resolved, That whereas the Lamokin Car Works are seeking a new location for their plant and in the hope of inducing them to locate in Bellefonte, certain propositions have been made to them. Therefore, it is hereby agreed, that the establishment of said industry at this place will result in large benefits and financial returns to the taxpayers of this borough, and as a further inducement we agree that they shall be exempt from taxation in the borough for the period of ten years.

AL. S. GARMAN,
GEO. T. BUSH.

The resolution was seconded by Mr. Bush, put and carried.

Mr. Gerberich offered a resolution in effect that the amount of two thousand dollars be appropriated to the Sinking Fund. Seconded and carried.

The report of Mr. Bush on the disbanding of the Coronet Hook and Ladder company was accepted. The Logan Steam Fire Engine Company then handed in the following:

To the Borough Council:

Having heard of the disbandment of the Coronet Hook and Ladder Company, we, the Logan Fire Company, wish to make the following offer:

That we will take full charge of said Hook and Ladder truck, convey it to each fire and put it in service for the use of Fire Department, and see that it is returned from all fires and kept in good order.

Provided, The said borough council will pay to said Logan Fire company the appropriation formerly paid to said Hook and Ladder Company, to be used to help maintain the team of horses now in service of Logan Fire Company.

JOHN O'CONNOR, President
FRANK C. WILLIAMS, Sec.

The above offer was accepted.

The Finance committee presented the agreement of the Electric Light company for the proper signatures and approval of council, which were given.

The Water committee was directed by president of council to see the officials of the Central railroad company and enter into an agreement regarding pay for water used by that company for their engines.

With the approval of the following bills council adjourned:

Electric Light Co, lock up	$5.70
Police Pay roll	35.00
E. W. Hale, Est. lock up rent	10.00
McCalmont & Co., lime	7.50
Electric Light Co., waterworks	1.50
J. N. Bauer & Co., supplies	1.25
Logan Machine Works, pipe, etc.,	11.44
Electric Light Co. for streets	260.50
Appropriation to Sinking Fund	2000.00
E. C. Humes, rent Logan hose house	125.00
Isaac Mitchell, clerk	12.50
A. Baum, team for fires	4.00
Bellefonte Fuel & Supply Co., coal	115 41
Bfte Fuel & Supply Co., coal for lockup	5.10
Wetzel Bros. repairs	5.70
Logan Machine Works, repairs	14.46
Water pay roll	74.44
Wm. Allen, repairs Undine Steamer	66.42
Street pay roll	63.48
Total amount	$2,828.43

A DELIGHTFUL TIME.

A correspondent sends us a few facts regarding a social dance held at the home of Mr. James Noon, on Water street, last Friday evening. Deponent averrith it to have been one of the most pleasant social gatherings ever held in Bellefonte. To the music of Mr. James Kane's violin the young people tripped the light fantastic until twelve o'clock, when refreshments consisting of sandwiches, hot coffee, cake and fruit were served. The party lasted until almost 3 o'clock. Those present were Mr. and Mrs. George Taylor, Misses Jennie Taylor, Amelia Bigleman, Mary Gallagher Maggie and Sarah Valance, Ella Lakey, Mary Martin, Kate Fusser, Allie Taylor, Kate Steinkechner and Mrs. Jessie Cox, and Messrs. Louis Kerlin, Bert Henderson George and Ferd Beezer, James Valance, Elmer Royer, Orris Gillan, Robert Bradley, George Hazel and Warner Barr.

HERRING'S APPOINTMENTS.

It is now believed that Collector Grant B. Herring will keep the head-quarters of the Twelfth revenue district at Scranton, although it was once thought that he would remove his main office to Williamsport. Mr. Herring Saturday announced Robert Buckingham, of Bloomsburg, as deputy collector, to succeed William Gable, of Shamokin, and George A. Herring, the collector's father, to be cashier, the latter to succeed Robert P. Penman, of Scranton.

—Sunday was a bad day for Bellefonte christians, and the attendance at all the churches demonstrated that fact. Sunday evening there was to have been an anniversary meeting in honor of the organization of the Christian Endeavor society, but the very slim attendance necessarily made the evening's exercises very brief. At the regular 6.10 o'clock meeting Miss Caroline Hunter lead and an address was made by Harris Heylmun, while Master Lee Walker gave a recitation on the Society in England.

AT THE HIGH SCHOOL.

The usual Monday afternoon exercises in the High School began with a song entitled, "At the Crowning," rendered by the school, which was followed by a great array of literary talent, such as is shown only by our greatest scholars and writers. The following is the program in full:

Declamation, John Larimer.
Essay, Mamie Jamison.
Recitation, Grace Blackford.
Declamation, Clarina Harper.
Essay, "Education," Morris Otto.
Recitation, Mollie Davis.
Essay, Mattie Faxon.
Essay, "Bellefonte," Bertha Atwood.
Declamation, James Wright.
Declamation, Dale Musser.
Recitation, Bessie Orris.
Essay, "Time," Gertie Stonerod.
Recitation, Martha McEntire.
Essay, "Perseverance," Katie Wieland.
Recitation, Claude Underwood.
Declamation, Wm. McCalmont.
Reading, "Work," Mary Underwood.
Essay, "Mice," Mollie Crotty.
Recitation, Katie Lieb.
Essay, "Mice," Kittie Heylmen.
Essay "Mines," Louisa Kellerman.
Essay, "Fashion," Gertie Dolan.

The meritorious renditions of the afternoon were by Mary Underwood and Wm. McCalmont. Visitors present during the afternoon were Miss Emma Berkstresser, of Hublersburg, and Miss Laura Cherry, of Bellefonte.

THE JUBILEE SINGERS.

The Ladies Auxiliary of the Y. M. C. A hit the popular vein when they brought the famous Fisk Jubilee Singers to Bellefonte, as was evinced by the large audience assembled in the opera house Monday evening to hear them. Altogether there are ten in the company, and a better selection of voices which tune in perfect harmony could not be found in the United States, or any where else, for that matter. The selections on the program numbered fifteen, but the number was more than doubled by the multitudinous encores. The majority of the selections were the old-time plantation melodies, than which there are none sweeter or more musical. Among the number might be mentioned "Steal away to Jesus," "Swing Low, Sweet Chariot," "Rolling," "Didn't my Lord deliver Daniel." "Sometimes," and many others equally as beautiful. It would be futile to attempt to particularize regarding any one member of this company, as they are all so trained that it requires every one to make the aggregation complete and, one less would leave a niche hard to fill. If they ever again return to Bellefonte they will be greeted with even a larger house than they had this time.

MCCABE WILL BE HERE.

Some time ago the exclusive announcement was made in the DAILY NEWS that an effort was being made to bring Chaplain C. C. McCabe to Bellefonte. We are now able to state definitely that, unless something unexpected transpires, Mr. McCabe will come to Bellefonte on Saturday, March 3rd, lecturing that evening in the Methodist church on the subject "The Bright Side of Life." On Sunday, the 4th, he will preach both morning and evening. This being the time of year when Chaplain McCabe is the busiest of anytime during the year, the above-mentioned three appointments will be all he can possibly make for Bellefonte. It is needless to make any comment at the present time about Chaplain McCabe as his reputation is too well known in Bellefonte to need eulogizing. Suffice to say that when he comes he will undoubtedly be greeted with large congregations.

CHAMBERS RE-APPOINTED.

On Tuesday E. R. Chambers, Esq., received from Revenue Collector, Senator Grant Herring, a letter of re-appointment as deputy revenue collector for the sixth sub-district. The letter was accompanied by the regulation commission. To say that this was a surprise to Ed., who, of course, had not even asked reappointment, is putting it mildly; but then, he has made a faithful official in his four years' service, and Mr. Herring perhaps thought it would be well to reappoint him.

His good luck, however, will be sour grapes to the five or six applicants who, in all party right, are justly entitled to recognition; but it may have been because there are five candidates, and each one equally well recomended, that Collector Herring sought to get out of the dilemma, by re-appointing Chambers.

IT WAS A LITTLE BABY.

About one of the smallest human beings the write ever heard of made its appearance on December 29th, 1893, when Mrs. George M. Page, of Eagleville, presented her husband with a tiny mite of a girl baby which weighed only one and one-half pounds. Up to this writing the child is living and doing well, apparently as well-formed, healthy and hearty in every respect as a child of normal weight. Mr. Page is a brother-in-law of our well know townsman, Mr. David Bartlet of the P. R. R. freight station.

PHONOGRAPH EXHIBITION.

Everybody in Bellefonte should go to the Evangelical church on Friday evening and hear the wonderful exhibition by Edison's latest improved phonograph. It is marvelous. It is more than wonderful. Price of admission only 20 cents for adults and 10 cents for children under twelve years of age.

THE BOARD OF TRADE.

It Holds a Long Session but Accomplishes Very Little.

Strange as it may seem, though the Board of Trade now holds only monthly meetings—the first Tuesday in each month, it was not until almost half-past eight o'clock Tuesday evening that a quorum was present in the arbitration room of the court house. President James Harris being absent, Vice President John Meese called the Board to order, and Secretary Clement Dale, Esq., read the minutes of the special session held in the court house a couple of weeks ago, which were approved.

Under the head of written communications the secretary read the communication from E. S. Thomas & Co., of Petersburg, Pa., who are seeking a location for a stoneware works. The Messrs. Thomas desired to know if a suitable plot of ground could be secured at a reasonable figure adjacent to the railroad; the price of wood per cord, coal per ton and lumber per thousand. They desire to start a small plant of their own or would be willing to organize a stock company and put up large works. On motion the secretary was instructed to write to Mr. Thomas and invite him to come to Bellefonte and see for himself what inducements can be offered, the Board agreeing to entertain him or them free while here.

The Finance committee reported that arrangements had been made with the present secretary, Clement Dale, to perform the duties of that office for a salary of $50 per year, to date from January 1, 1894. The Board approved the arrangement.

For the special committee appointed to solicit subscriptions necessary to make an offer to the Lamokin car works to locate in Bellefonte Mr. A. S. Garman reported the full amount of the five thousand dollars desired pledged. There was no definite report as to what the above company proposes to do, but a member stated on reliable authority, that Bellefonte's chances were yet more favorable than that of any other place seeking the industry; and that the Lamokin company would not locate anywhere until they first visited Bellefonte and thoroughly inspected the location, surroundings, etc. On motion the secretary was instructed to extend to the company an invitation to visit Bellefonte and say that they would be entertained by the Board while here.

Mr. Hammon Sechler offered as a suggestion that the Board of Trade have prepared and published a pamphlet in which will be given in detail a description of our town and what modern advantages we have here, and a full description of our railroad outlets and facilities and our natural resources. The Board deemed the suggestion a wise one and on motion of Mr. Garman, seconded by Mr. Hunter, the chair appointed as a committee to carry out this work, Hammon Sechler, chirman; William Shortlidge and General James A. Beaver. No other business being brought before the Board it adjourned to meet in regular session the first Tuesday in March.

A GOOD SCHEME.

For the past ten or more years the Bellefonte Young Men's Christian Association has been more of a failure than a success. True, it is, there were seasons of apparent prosperity, when the Association seemed to be getting along all right financially, and doing a good work spiritually and socially. But they only proved the fitful flushes between long gaps of retrogression and depression. But at the present time, under the management of the present board of directors, with the help of the effective working committees, but, more than all, with such a man as Mr. Cota as General Secretary at the helm guiding and planning and executing, the Association promises to become a permanently established factor in the religious organizations of Bellefonte. Its membership is now perhaps larger than ever before, and the members all feel an interest in the work. There is connected with the Association a gymnasium the likes of which cannot be found anywhere outside the large cities and every inducement possible is thrown out to bring young men into its circle.

But that is not what we started out to say. The intention of this article is to state that on the third floor of the Y. M. C. A. building are three fine large rooms, heated with steam and well lighted. It now is the intention of the board of directors to have these rooms newly papered and handsomely fixed up, and then will rent the same to any young men desiring a room or rooms. This is a good scheme and one that we trust will be carried out. It will be a source of some little revenue and might as well be utilized as allowed to go to waste.

LENT IS HERE.

Lent is here. The season of ashes and sackcloth begins to-day, and there will be no weddings for 40 days and 40 nights, at least among the orthodox. It is true there will be the usual amount of courting, so that when Easter arrives, with its lilies and new bonnets, there will be plenty of weddings in immediate prospect. Lent is regarded with more apprehension by the worldly than it deserves, perhaps, for it is noticeable of late years that there is not such a decided stopping of all recreation as was formerly the case, when the world was no better, save in outward form. There are numerous Lenten entertainments being discussed, and it is probable that cards and similar amusements will not be banished altogether, although there may be a decorous gravity preserved at social gatherings for the next six weeks. As a matter of fact, the chief use of Lent to the social world is the bringing of a period of rest.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder

ABSOLUTELY PURE

PERSONAL PENCILINGS.

Mr. Archie Allison is nursing a good-sized boil on his neck.

Ed. Brown, Jr., has returned from his trip to Washington, D. C.

Miss Emma Aikens departed Wednesday evening for an extended visit among friends in Ohio.

Dr. H. K. Hoy has sufficiently recovered from a severe attack of the grip to be out and around as usual.

Mr. Moyer Lyon, who has been visiting eastern cities for several weeks past, is again at his home in this place.

T. C. Hopkins, Ph. D., instructor in geology at the State College, has accepted a position at the Chicago University.

Col. James F. Weaver, of Milesburg, was in Millheim a few days this week visiting his son, Landlord Willis Weaver, and his family.

Mr. J. C. P. Jones says his pension was never suspended; that the item stating that it had been was not correct. We are glad this proves to be the case.

Mr. Lynch Gardner, who was visiting Mr. William Long and family in this place, departed Wednesday morning for his home in Roanoke, Virginia.

Mr. Ed. Blanchard, Jr., after a sojourn at home, departed Monday morning for Havreford College, at which institution Ed. is now one of the most promising students.

Mr. Frank L. Swaney, now of Johnsonburg, Pa., but formerly of this place, after spending a week visiting friends in this community, departed Thursday morning for his home in Elk county.

Mr. H. L. Hutchinson, of Harrisburg, and who fills the responsible position of express agent between Philadelphia and Pittsburg, is a guest at the home of Mr. and Mrs. Charles Tripple, on Lamb street.

Messrs. John Noll, John A. Rupp and Ed. Brown, Jr., are Bellefonters who are now visiting in the city of "magnificent distances." We presume they are down there to fix up the Bellefonte postoffice appointment.

Mr. J. M. Meyer, of Centre Hall, with his family, shook the dust of Centre county from off their feet Monday last and departed for Virgina, where Mr. Meyer has purchased a farm near Bowling Green and, in the future, will engage in the pursuit of agriculture.

Messrs. John A. Rupp and John Noll returned Tuesday evening from a five days' trip to Washington, D. C. We presume both gentlemen can now tell all about the Wilson bill, the Centre county appointments, how Cleveland is, etc., etc., and especially the etc.

WILL BELLEFONTE BE IN IT?

Sunday's Philadelphia Inquirer says: The Pennsylvania State League made a very gallant fight in 1893, and prospects for 1894 looked exceedingly bright for a time. It was hoped that Wilkesbarre would be secured to take the place made vacant by York, and thus fill out one of the best minor league circuits in the country. Wilkesbarre, however yielding to the wishes of a small clique, has decided to remain in the Eastern league, and the state league is compelled to look elsewhere for a desirable member. There are now five well backed clubs which are sure to be in the circuit, viz: Altoona, Easton, Harrisburg, Reading and Scranton. Johnstown is uncertain. The Flood City has always supported a strong club by subscription, but up to this time no movement for reoaganization has taken place. Three clubs may therefore be required to complete the circuit, and there is no doubt but that they may be secured. Bellefonte and Hazelton are anxious to secure league franchises, and other possibilities will be found in Williamsport, Bethlehem, Lancaster and Pottsville. President Myers and Secretary Diddlebock will visit some of the above cities during the coming week, and a meeting to complete the circuit will be held at Harrisburg in about two weeks.

CHANGE OF TIME.

The Central Railroad Co., of Pennsylvania announces that taking effect Thursday Feb. 9th, the Local Freight train will leave Bellefonte at 9.30 A. M. in place of 6.25 A. M. as heretofore, and on the return trip leave Mill Hall at 2.00 P. M., reaching Bellefonte at 4.00 P. M. This change is made to enable shippers to deliver freight in the morning up to 8.30 A. M. for shipment that day, which is not possible on the present schedule. By departing from Mill Hall at a later hour the through Philadelphia freight service will also be improved.

Ripans Tabules cure dyspepsia.

DEATH OF HENRY BARNHART.

One of Bald Eagle's Most Prosperous Farmers Succumbs to Diabetes.

On Saturday last the DAILY NEWS announced the serious illness of Mr. Henry L. Barnhart, of Roland. Mr. Barnhart took ill only on Friday with diabetes, and to-day it is our painful task to chronicle his death, which occurred Monday evening about 6 o'clock. Deceased was aged about 70 years and is probably one of the best known and most prosperous farmers in the Bald Eagle valley, where he has lived the most of his life. He is related by marriage to many of the best families in Centre county. He is survived by an only brother, Mr. P. W. Barnhart, and three sons, John C., William and Irwin. His daughter was the wife of Dr. H. K. Hoy, of this place, who died a number of years ago. Mr. Henry Barnhart was an uncle of Mr. James Barnhart, of the First National bank, and Mrs. J. C. Weaver, of this place; also of the late Mrs. H. H. Harshberger.

TWO DEATHS.

Fillmore Loses Two of Its Citizens in as Many Days.

On Sunday night at 11 o'clock Mr. Ephriam Glenn, of Fillmore, after an illness of only four days breathed his last at his home near the above named place; the cause of his death being heart disease. Mr. Glenn was perhaps one of the best known and most successful farmers in the Buffalo Run valley. He was aged about 65 years and leaves a small family to mourn his death.

GEORGE L. GRAY.

At his home near Fillmore, Mr. George L. Gray departed this life on Saturday evening about 5 o'clock, aged about 67 years. The cause of death was Bright's disease. A wife and five children are left to mourn their loss. The funeral took place on Tuesday, meet at the house at 12 o'clock and interment to be made at Gray's church.

HELP ONE ANOTHER.

Hard times we hear complained of on every side, and not without good reasons. Farmers have little to sell and what they have demands such a low price, because the consumer has nothing to buy with, or more strictly speaking, nothing to pay with; but this is the class of persons who feel the pressure of hard times. True if we were asked what became of our last summer's wages some of us would be ashamed to tell, but that we stand in need of the necessaries of life without means to procure them is or should be sufficient to touch a sympathetic heart. Now some of those men would work for half pay if they could get it, while there are some, of course, who would rather be where the work is done and the meals nearly cooked; but all must live, work or not, so that he that can furnish employment might well be called a benefactor. The farmer might clean up his fence rows, fix his fence and repair his outbuildings. That would be a job done, and hurry next spring's work or increase the output of next year's crop. In a word, let us do what we can for one another.

The snow that fell is being made use of, but not without first shoveling open the roads that were filled in some places from 4 to 6 feet deep.

—The regular sociable of the Lutheran church will be held at the parsonage, No. 29, East High street, to-morrow (Thursday) evening. In addition to the usual elegant refreshments had on such occasions, oranges and bananas will be sold during the evening. Everybody is invited to attend.
